#### Attachment A: Public Consultation Package

## Let's talk about safer speeds for Queenstown Lakes

## People's safety is our number one priority.

Everyone should get where they're going safely. Whether you're driving, walking, cycling or even scooting, speed limits are one important tool for keeping people safe.

The way speed limits are set throughout Aotearoa New Zealand is changing. This means decisions on speed management will be able to be made at a more localised level in the future to address specific issues and community concerns.

## Queenstown Lakes District Council is responsible for setting safe speed limits on our local roads.

We've been working on a Speed Management Plan for the district, following new guidance set by the Land Transport Rule (setting of speed limits 2021<sup>1</sup>)..

The guidance requires us to focus on establishing **principles for speed management** in our district, rather than looking at speed limit changes on a street-by-street basis.

We're proposing three principles to guide the setting of safe speeds in our district. This is supported by three priorities for implementation to ensure the changes have the greatest benefit within available budget and resourcing.

Read on to find out more about the proposed principles and priorities for managing speed in our district. Then let us know what you think by making a submission.

#### Here's how to get involved:

Safer speeds is an important topic for everyone in our community.

Before you make a submission, take some time to read the information we've provided here and in the online speed limit maps. The maps illustrate how we'll bring the principles for speed management to life to improve safety in your community.

An online form will be available at letstalk.qldc.govt.nz. It will ask you to share your views on whether you think we are prioritising the right things to keep eveyone safe on and around our roads.

#### Submissions close on XX XXXX 2023.

<break out: Read more and have your say at letstalk.qldc.govt.nz>

<sup>&</sup>lt;sup>1</sup> https://www.nzta.govt.nz/resources/rules/setting-of-speed-limits-2022/

### Why is managing speed important?

#### Safety

Speed affects the severity of all crashes, even when it's not the cause<sup>2</sup>. A small change in speed makes a big difference, especially when cyclists or pedestrians are involved. We are focussed on ensuring that everyone who uses our roads can do so safely.

\*\* Thanks to Auckland Transport for the use of this infographic.

Speed is an issue which is being recognised at a national level as part of Waka Kotahi's 'Road to Zero' Road Safety Strategy<sup>3</sup>. We're doing our part by aligning our plans with national and regional direction and strengthening collective efforts to reduce the impact of fatalities and serious injury crashes.

#### Creating space for everyone

We want to ensure that our town centres, local neighbourhoods, recreation spaces, urupa | cemeteries and kura | schools are places everyone can safely share and use. Safer speeds, along with key infrastructure improvements such as safety barriers and cycle lanes will encourage more people to walk or cycle, enjoy our community spaces and for our tamariki to feel safe travelling to and from school. You'll find detail about some of the infrastructure upgrades underway on page X.

#### **Reducing emissions**

While safer speeds isn't known to have a significant impact on emissions, it does create a safer environment for walking and cycling, or other alternative ways of getting around. Making it a more attractive option for people to reduce their reliance on cars will be a key part of supporting progress towards out goal of zero carbon emissions (Queenstown Lakes Climate and Biodiversity Plan 2022 - 2025).

# How can we improve road safety in Queenstown Lakes District?

There are a number of important tools to reduce the risk on our roads, including safer roads, safer speeds, safer cars and safer drivers. We can influence this through:

- Reviewing and setting appropriate speed limits
- Investment in infrastructure to ensure our roads are designed and maintained for safe use
- Supporting behaviour change through education programmes and promotional activities aimed at all road users and travel types.

#### Partnering for safer speeds

Our local road network connects to state highways administered by Waka Kotahi NZ Transport Agency and distinct roads administered by Te Papa Atawhai | Department of Conservation.

Where our roads connect, we will work with our partners to align speeds to support network consistency and a common road user experience. As part of this:

- Waka Kotahi State Highway is developing its own Speed Management Plan
- We are aligning to changes introduced by Southland District Council on our district boundary

## **Principles for safer speeds in Queenstown Lakes**

Below we describe the proposed vision and principles for safer speeds and how we'll implement it through speed limits and other interventions. To drill into more detail on the proposed safer speeds, you can check out Appendix 1 or the online speed maps at letstalk.qldc.govt.nz

#### People can choose to move around our District in a safe and healthy way

# What changes are proposed for the physical road environment?

We've already mentioned that speed limits are just one tool available to improve safety on our roads. Another important tool is ensuring we have appropriate infrastructure in place and providing a range of choices for people to get around.

Here's a snapshot of our recent infrastructure improvements and transport planning work:

#### Connecting routes to actively get from A to B

Providing more options for getting from A to B was a strong theme in the 2021-2031 Ten Year Plan. Solid progress has been made to plan and design eight priority trails connecting key Whakatipu destinations such as Arrowtown, Arthurs Point, Kelvin Heights, Jacks Point, Lake Hayes Estate and Shotover Country, Fernhill, Frankton and Queenstown.

Construction has recently started on improvements to the Arthurs Point to Queenstown route. The route is funded by the Waka Kotahi Climate Emergency Response Fund (CERF) programme. At this time the route doesn't include an alternative river crossing from the existing Edith Cavell bridge.

In Wānaka, work has started to construct the highly anticipated Schools to Pool route, part of which has also been funded by the CERF programme. Construction has also begun on a shared pathway along Andersons Road and improvements along the waterfront have considerably improved access for those wishing to walk and cycle.

#### Towards a more pedestrian-friendly Queenstown town centre

The Queenstown town centre street upgrades are largely complete. Lower Beach and Rees Street have reopened as high-quality shared spaces and are being enjoyed by locals and visitors. Park Street is also complete, featuring a wide shared path, new street furniture, lighting and signage. Work is continuing on Brecon Street. The Town Centre Arterial (stage 1) will also create more space for public transport and allow for further high quality shared spaces in downtown Queenstown.

Great progress has also been made on Wānaka's Lakefront Development Plan, providing a wide shared path for those who would prefer to walk or cycle.

#### Safety upgrades in Wānaka

A range of safety upgrades are underway around Wānaka, including over 9,000m of new safety barriers, new road signage and line markings, minor earthworks and landscaping. These improvements are partially funded by Waka Kotahi's Road to Zero strategy.

#### **Transport Planning**

Council, Waka Kotahi and Otago Regional Council are committed to working together in partnership to provide an enduring, safe and affordable transport system, which also provides you with transport choice.

The partnership is known as Way to Go and recognises all three agencies have an important role to play in driving change.

Through the partnership there has been considerable planning completed and started. Current work includes a Whakatipu Public Transport business case, Parking Management Strategy for the district, mode shift planning and much more. You can read more at www.gldc.govt.nz/way-to-go

### Implementing safer speeds

We are proposing a number of speed changes across the district, aligning with the strategic prinicples covered earlier in the document.

You can take a look at the proposed changes in Appendix 1 below. Or head to letstalk.qldc.govt.nz to view an online map.

#### When will speeds change?

The first step is to hear from the community. We will consider all feedback received and use it to finalise our Speed Management Plan for adoption by Council. After that, we need to progress through Waka Kotahi certification and entry into the National Speed Limit Register.

We will implement speed changes from our Speed Management Plan from 2024. The first priority will be speeds around our local schools. Further changes will be prioritised after that, as resources allow.

Once signage has been installed, the speed limits will have legal effect and can be enforced by the NZ Police. There will always be education ahead of any changes taking place.

#### Join the conversation

#### Let us know what you think

Your view is important to us and we encourage you to make a submission.

Here's how:

- online at letstalk.qldc.govt.nz
- email to letstalk@qldc.govt.nz subject line 'Speed submission'

 Post to 'Speed Review', Queenstown Lakes District Council, Freepost 191078, Private Bag 50072, Queenstown, 9348 (no stamp required)

Submissions close on XXX.

#### Are we missing something?

Our Speed Management Plan and proposed implementation highlights the roads we think have the greatest opportunity to improve safety and to reduce the number of fatalities and serious injury crashes.

If you think we have missed anything, please include it in your submission.

#### Where to find out more

We've provided lots more information, including maps and FAQs at letstalk.qldc.govt.nz

#### What happens with my feedback?

We'll consider and summarise the feedback and include details of how it has been used to finalise the plan.

#### Need help with your submission?

Please give us a call on **03 441 0499** (Queenstown) or **03 443 0024** (Wanaka). One of our team will help or take your submission over the phone. You can also email us at **letstalk@qldc.govt.nz** with 'Speed submission' in the subject line.

## Appendix 1 – proposed speed changes
