17.1

Zone Purpose

The purpose of the Airport zone is to provide for a range of airport and airport related activities at Queenstown and Wanaka Airports and to recognise the unique role of the airports in providing for the social and economic wellbeing of the community.

Queenstown Airport provides facilities for the transportation of people and freight and is a key asset to the District in terms of supporting the tourism industry and the needs of local and business travellers.

Queenstown Airport acts as an important gateway into the District and facilitates access and economic activity in the local and broader regional economies.

The Airport’s main function is for domestic and international scheduled passenger movements as well as freight. Queenstown Airport is recognised as a nationally significant asset in the light of its significant contribution to the tourism industry. Queenstown Airport also provides facilities and infrastructure for helicopter, flightseeing and general aviation operations. It is also a critical provider of emergency services and is a lifeline utility under the Civil Defence Emergency Management Act 2002.

International tourism is New Zealand’s largest foreign exchange earner and the Queenstown Lakes District tourism industry is heavily reliant on air transport. Queenstown Airport is a significant source of employment for the District.

Wanaka Airport is Regionally Significant Infrastructure to the District and is an important commercial and recreational aviation hub for the Upper Clutha. Wanaka Airport may one day accommodate scheduled and chartered air transport services.

The Airport zone applies to all land used for airport and airport-related activities at Queenstown and Wanaka Airports. The zone rules apply a range of performance standards to manage the effects of land uses carried out at the Airports on amenity values.

The objectives and provisions for Wanaka Airport reflect the more remote location of Wanaka Airport outside of the Wanaka Urban Growth Boundary and seek to avoid adverse effects from inappropriate commercial activities locating at the Airport. The strategic importance to the District of both airports and the finite nature of the land resource for both airports is also recognised in the Airport zone provisions.
