Mapping	[Not supported by Ms Picard in respect of notification of D and NC activities in the urban environment]	Include differentiated mapping for all areas where wāhi tūpuna overlap with Urban Environment zones to indicate “Urban Wāhi Tūpuna”, including Tāhuna (Queenstown), Te Kirikiri, Take Kārara. Notate these urban areas to indicate that the rules specific to wāhi tūpuna do not apply, but the important values of these wāhi tūpuna for manawhenua may be used in assessing notified discretionary or non-complying activities. [NB: the intention of the proposed notation was not to suggest that all D, NC consents in these areas should be notified].
