

## **The Fencing of Swimming Pools Act 1987**

*Adopted – Council 26 January 2001*

As a matter of policy in dealing with requests for exemption from the Fencing of Swimming Pools Act 1987, the (Regulatory) committee will rely on section 5 c (ii) that provides that nothing in the act shall apply in respect of any excavation, structure or product that is not modified for use, or intended to be used, for swimming, wading, paddling, or bathing BUT THAT where in the opinion of the Principal: Compliance, CivicCorp, a request for exemption for other than a swimming pool or spa pool requires special consideration, it be brought forward to the District Regulatory Committee for determination.
