Note: the annotations in this chapter reflect the Council's interpretation of the provisions affected by appeals.

20.1 Purpose

The Settlement Zone applies to the settlements of Glenorchy, Kinloch, Kingston, Luggate, Makarora and Cardrona. The Zone provides for spatially well-defined areas of low density residential living. Due to the location of each settlement within rural areas, and as all settlements (except for Luggate) are located amidst Outstanding Natural Landscapes, the location and setting of each settlement are strong contributors to their individual identities.

Historically, settlements have served the function of rural service centres, however over time they have diversified to comprise a range of uses and activities that increasingly provide for the day-to-day needs of both residents and visitors. Settlements can provide opportunities for unique visitor experiences due to their location within distinctive landscape settings, and their relative isolation from the District's major urban centres.

Low density residential activity is provided for throughout the Zone. Visitor Accommodation Sub-Zones and Commercial Precincts on the Planning Maps show locations where visitor accommodation activities, and limited commercial, commercial recreation and community activities, are encouraged to establish. Limited commercial activities are also provided for outside of the Precincts, provided they are small-scale, primarily serve a local convenience purpose, and maintain residential amenity and character.

While development is anticipated within the Zone, some areas are subject to natural hazard risk. Low-lying areas at Glenorchy, Kinloch and Kingston that are susceptible to flooding are shown as 'Historical Flood Zone' on the Planning Maps, with corresponding rules relating to building levels. These rules implement the district-wide policies in Chapter 28 – Natural Hazards.

Within the Cardrona Settlement the Commercial Precinct applies to land located around the focal point of the Cardrona Hotel and Cardrona Valley Road. Throughout the balance of the Settlement Zone at Cardrona, the Visitor Accommodation Sub-zone enables the further establishment of visitor accommodation activities. The Cardrona Village Character Guideline 2012 provides broad design guidance to development within the Zone at Cardrona.

The unique amenity and historic values of the Kingston Flyer, which is a significant historic heritage and tourist resource for Kingston and the region, will be maintained and enhanced through the comprehensive development of the precinct for a mix of small-scale retail, commercial, commercial recreation, community, visitor accommodation and more intensive residential (such as terraced housing or apartments) activities. This will sustain the viability of the Kingston Flyer operation into the future.</u></p>	<p>Kingston Lifestyle Properties Limited ENV-2021-CHC-049</p>

20.2 Objectives and Policies

20.2.1 Objective – Well designed, low density residential development is enabled within settlements located amidst the wider Rural Zone.

Policies

- 20.2.1.1 Enable low density residential development that retains character and amenity through the use of minimum lot sizes.
- 20.2.1.2 Ensure that development is designed in a manner that is consistent with the capacity of infrastructure servicing it.
- 20.2.1.3 Ensure appropriate on-site wastewater treatment and disposal, having particular regard to:
- the method of sewage treatment and disposal;
 - the location, capacity and design of the proposed on-site wastewater treatment system;
 - the ability for the on-site wastewater system and run-off to be contained within the boundaries of the subject site regardless of seasonal variations and loading;
 - the environmental effects of the proposed on-site wastewater treatment system including minimising adverse effects on ecosystem services and values to Manawhenua; and
 - ensuring the location of vehicle accessways, manoeuvring and stormwater dispersal areas do not adversely affect the functioning of the on-site wastewater system.

20.2.2 Objective – High quality amenity values and residential character are maintained in the Settlement Zone.

Policies

- 20.2.2.1 Ensure that the height, bulk and location of residential development maintains the low density character, and residential amenity values of the Zone, by maintaining privacy, setbacks and access to sunlight.

SETTLEMENT ZONE 20

- 20.2.2.2 Provide for net site areas that accommodate low density development with low site coverage by buildings, spacious outdoor areas and sufficient land area for on-site wastewater systems.
- 20.2.2.3 Ensure that development within the Zone is of low scale to complement the existing low scale of development.
- 20.2.2.4 Include development controls that reflect key characteristics of development in Settlements, including through building height limits, encouraging gable roof forms in Glenorchy and Cardrona, and ensuring consideration of the Cardrona Village Character Guideline 2012.
