Subject: Arthurs Point Renotification; Urgent response to Commissioners Minute 19/10/22 -Deadline (Thursday 20th) 5pm
Date: Monday, 24 October 2022 6:04:30 PM

Hi,

I am writing to highlight our disagreement and disappointment regarding the short time frame in which we had to respond to the Arthurs Point renotification.

We are currently working seven days a week due to the current staff shortages so we simply didn't have the time to sit down to write a response.

We don't believe the process was well thought out as there is no way someone can reply with a meaningful and detailed response in such a short time. One tends to think this has been engineered so the responses will be minimal. We don't believe this process has been fair at all.

How can the commissioners thoroughly consider the matter when all potential submitters/experts had very little time to respond to last minute changes.

When we consider the points above how can any experts conference on the current timetable when no one is being given the necessary time to review all the evidence.

This is unfortunately what we have come to expect from this body.

Regards

Murray & Lyndal Devery
