| Total receivables | 30,089 | 30,298 | (209) |  |

* Amounts are considered past due.

## Commentary

*1 $\$ 1.1 \mathrm{M}$ reduction in balance due to size and timing of Crown Infrastructure Partner invoicing. All CIP money owing is current.
*2 Sep 23 balance consists of $\$ 2.6 \mathrm{M}$ of parking infringements, of which $\$ 2.4 \mathrm{M}$ is aged 90 days plus which largely represents the $\$ 2.0 \mathrm{M}$ allowance for doubtful debts from non-exchange transactions figure. Infringements aged greater than 90 days are passed onto the Courts for them to collect on our behalf. As a result we don't write off any of that debt.
${ }^{*} 3$ There are a total of 2,299 properties (\$4.9M) in arrears for previous years rates as at 30 September 23 (Sep 22: 2,303; $\$ 4.6 \mathrm{M}$ ). To note, of the 2,299 properties in arrears, there are 717 with a balance less than $\$ 100$ which amounts to $\$ 18 \mathrm{k}$.
$42 \%$ of the 2,299 properties in arrears are rated as residential, $18 \%$ vacant sections, $16 \%$ accommodation, and $7 \%$ country dwelling.

As at 31 October 23 the arrears for previous years rates had reduced by $\$ 0.6 \mathrm{M}$ to $\$ 4.3 \mathrm{M}$.
*4 Both years balances represent the September accruals only. This years accrual is larger due to more subsidised capital expenditure compared to last year.
*5 $\$ 0.4 \mathrm{M}$ increase in allowance for doubtful debts due to parking ( $\$ 0.3 \mathrm{M}$ increase in the provision) and freedom camping infringements ( $\$ 0.1 \mathrm{M}$ increase in the provision). Offset by $\$ 0.5 \mathrm{~m}$ reduction in doubtful debt provision as payment was received on previously provided for debt.
*6 The main variances include, a $\$ 2.2 \mathrm{M}$ reduction in development contributions debtors balance as were four large development contributions as at 30 Sep 22 which have since been paid, a $\$ 0.7 \mathrm{M}$ reduction in Skyline debtors balance due to timing of the issuance of the Apr 23 - Sep 23 interim invoice, a $\$ 1.7 \mathrm{M}$ increase in consent debtors mainly $\$ 1.3 \mathrm{M}$ resource consents, and a $\$ 0.7 \mathrm{M}$ increase in other sundry debtors.
*7 Decrease in aging of debt in 61-90 days mainly due to receipt of 2 large development contributions totalling $\$ 1.6 \mathrm{M}$ as at Sep 22 which have subsequently been paid. 90 days + increase of $\$ 1.2 \mathrm{M}$ with $\$ 0.5 \mathrm{M}$ increase in infringements, and a $\$ 0.7 \mathrm{M}$ increase in consent debtors.
