

Attachment B: Changes to the Operative District Plan

Resource Management (National Environmental Standard for Plantation Forestry) Regulations 2017

The following provides an audit of the current rules that would relate to forestry activities and require amendment to remove any duplication or conflict with the Resource Management (National Environmental Standard for Plantation Forestry) Regulations 2017 [NES-PF].

Regulation 6 of the NES-PF allows for more stringent rules if relates to matters of national importance and the rule recognises and provides for the protection of –

- (a) Outstanding natural features and landscapes from inappropriate use and development; or
- (b) Significant natural areas

Key:

Status	P= Permitted RD= Restricted Discretionary D= Discretionary NC= Non-Complying PR= Prohibited
NES-FP status	C= Conflicts D=Duplicates
Action	R= Retain A=Amend AN= Advice Note D= Delete NA= No Action
	No relevant provisions
Green	General Rule (not forestry specific)
Red	Appealed
Grey	No Action at this point
