

RE: Queenstown Marathon

The Queenstown Marathon is being held on Saturday 15<sup>th</sup> November 2025.

As a result, multiple road closures are required to ensure the safe passage of participants.

Rubbish + Refuse will be catered for where possible. All rubbish + refuse from the event will be removed so that the site is left in a clean condition.

NZTA road closure application has also been submitted.

The closures will be opened in various stages once the Tail End Charlie has passed the site and it is safe to do so.

Emergency services will be permitted access at all times.

All residents and businesses will be notified and consulted with prior to the event.

Please see the attached supplementary documents.

Cheers,  
Kelsey

## RE: Queenstown Marathon Contingency Plan

Please find the below information for the safe passage of Athletes in the event of severe flooding at the South End of the Lake Hayes track.

### **Possible Reason for Road Closure Extension:**

In the event of heavy rain leading up to the event, the track at the southern end of Lake Hayes can become flooded and may be unsuitable for runners to traverse safely across. As a result, we may be required to use an alternative route. This will mean that athletes will continue to run along Arrowtown-Lake Hayes Rd until they get to the Lake Hayes Pavilion, and then run back along the Lake Hayes Track on the eastern side of the lake until meeting with the original course route at the head of Lake Hayes on Rutherford Rd. Because of this, the distance for the marathon is reduced, and therefore the distance will need to be made up elsewhere.

### **Solution:**

To find the additional distance required, we propose a course change which will require an amendment to the approved road closures. The roads affected are Speargrass Flat Rd (Hunter Road to #92 Speargrass Flat) and Arrowtown – Lake Hayes Road

### **The approved closures for these roads are:**

Arrowtown- Lake Hayes Road: 0830 – 1030

### **The proposed closure times are:**

Speargrass Flat Road (from Hunter Road to #32): 0830 – 1330 (extended closure 5 hours)

Arrowtown-Lake Hayes Rd: 0830 – 1100 (0.5 hours longer)

### **Notification:**

Residents within the closed roads will still be able to access their properties. They will be notified by letterbox drop of the changes and will also be issued a 'residents access pass' so they can be given access via a marshal at the road closure points.
