24.1 Zone Purpose

This chapter applies to the Wakatipu Basin Rural Amenity Zone (Rural Amenity Zone) and its sub-zone, the Wakatipu Basin Lifestyle Precinct (Precinct). The purpose of the Zone is to maintain and enhance the character and amenity of the Wakatipu Basin. Schedule 24.8 divides the Wakatipu Basin into 23 Landscape Character Units. The Landscape Character Units are a tool to assist identification of the particular landscape character and amenity values sought to be maintained and enhanced. Controls on the location, nature and visual effects of buildings are used to provide a flexible and design led response to those values.

The purpose of defining the Precinct is to identify areas within the broader Rural Amenity Zone that have the potential to absorb rural living and other development, while still achieving the overall purpose of the Rural Amenity Zone. The balance of the Rural Amenity Zone is less enabling of development, while still providing for a range of activities suitable for a rural environment.

While the Rural Amenity Zone does not contain Outstanding Natural Features or Landscapes, it is a distinctive and high amenity value landscape located adjacent to, or nearby to, Outstanding Natural Features and Landscapes. There are no specific setback rules for development adjacent to Outstanding Natural Features or Landscapes. However, all buildings except small farm buildings and subdivision require resource consent to ensure that inappropriate buildings and/or subdivision does not occur adjacent to those features and landscapes. Buildings and development in the Zone and the Precinct are required to be set back from Escarpment, Ridgeline and River Cliff Features shown on the planning maps, to maintain the distinctive and high amenity landscapes of the Wakatipu Basin.
