Request for Official Information LG26-0134 - Herbicide Use in Public Spaces

Dear ██████████,

Thank you for your request for information held by the Queenstown Lakes District Council (QLDC). On 4 May 2026 you requested the following information under the Local Government Official Information and Meetings Act 1987 (LGOIMA):

- 1. Herbicide Use and Application**
 - a. What herbicide or weed control products are currently used in public spaces (e.g. parks, playgrounds, berms, footpaths, and roadside areas)?
 - b. Where are these products typically applied?
 - c. How frequently are these areas treated?
- 2. Policies and Guidelines**
 - a. What policies, guidelines, or operational frameworks govern herbicide use in public spaces?
 - b. Are there specific considerations or restrictions for areas such as playgrounds, schools, or other high-use public spaces?
- 3. Notification and Public Awareness**
 - a. How are residents informed when herbicide spraying is planned (if at all)?
 - b. Are there standard notification procedures or requirements in place?
- 4. Decision-Making and Alternatives**
 - a. What factors are considered when deciding to use herbicides in public areas?
 - b. Are alternative (non-chemical) methods currently being trialled or considered? If so, please provide details.
- 5. Review and Safety Considerations**
 - a. What sources of scientific or regulatory guidance does the council rely on when assessing the safety of herbicide use in public spaces?
 - b. Has the council undertaken any internal or independent review of herbicide use or safety in recent years?
 - c. If so, please provide details of those reviews.
 - d. If no recent review has been undertaken, when was the current approach last formally reviewed?

QLDC RESPONSE

In response to your request, the QLDC Parks Service Delivery Team, the QLDC Roding Operations and Contracts Team, and the external Delta Team were consulted.

Decision to release information

1. Herbicide Use and Application

a. What herbicide or weed control products are currently used in public spaces (e.g. parks, playgrounds, berms, footpaths, and roadside areas)?

Road network maintenance activities are undertaken within road reserves, including road verges, around edge marker posts, culverts, stormwater channels, and for noxious weed control. Public pathway maintenance includes weed spraying, as well as moss and mould control. Herbicide and weed control products are typically applied using boom spray arms, ute spray guns, knapsack sprayers, spot application methods, and direct gel application.

The herbicide and weed control products currently used include Glyphosate, Tordon XT, Agri Oil, Meturon, Surrender Moss Killer, and Codacide.

b. Where are these products typically applied?

Please refer to the attached [Contractor Agrichemical Usage Report](#), which contains information regarding the herbicide and weed control products currently used in public spaces, including the locations where these products were applied and the dates on which those areas were treated, for the period 21 August 2023 to 8 April 2026.

Note that the enclosed link will expire on 21 June 2026, 9:38 AM (UTC+12:00) Auckland, Wellington.

c. How frequently are these areas treated?

Depending on seasonal growth and the effectiveness of treatments, areas are generally treated two to three times per year. For more details relating to the locations where herbicide and weed control products were applied and the dates on which those areas were treated, please refer to the report provided in response to item 1.b of your request.

2. Policies and Guidelines

a. What policies, guidelines, or operational frameworks govern herbicide use in public spaces?

Herbicide use in public spaces is undertaken in accordance with guidance provided by chemical suppliers, with an emphasis on ensuring application rates are optimized so that correct concentrations are used for each task. QLDC does not currently have a specific Spray Policy governing herbicide use in public spaces.

b. Are there specific considerations or restrictions for areas such as playgrounds, schools, or other high-use public spaces?

Extra care is taken in high-use public spaces, with spray use minimised where practicable, including around playgrounds and similar areas.

3. Notification and Public Awareness

a. How are residents informed when herbicide spraying is planned (if at all)?

During herbicide spraying, signs are displayed and left in place for the period specified on the product label. Pilot vehicles are used where required to make spray operations visible. QLDC does not provide advance notification of planned herbicide spraying.

b. Are there standard notification procedures or requirements in place?

No, QLDC does not currently have standard notification procedures or requirements in place relating to herbicide spraying activities.

4. Decision-Making and Alternatives

a. What factors are considered when deciding to use herbicides in public areas?

Decisions regarding the use of herbicides in public areas are guided by industry best practice and the manufacturer's label recommendations for each product used.

b. Are alternative (non-chemical) methods currently being trialled or considered? If so, please provide details.

No, QLDC is not currently trialling or considering alternative non-chemical weed control methods.

5. Review and Safety Considerations

a. What sources of scientific or regulatory guidance does the council rely on when assessing the safety of herbicide use in public spaces?

b. Has the council undertaken any internal or independent review of herbicide use or safety in recent years?

c. If so, please provide details of those reviews.

d. If no recent review has been undertaken, when was the current approach last formally reviewed?

QLDC has not undertaken any internal or independent review of herbicide use or safety in recent years. Accordingly, no information is held regarding reviews of this nature, and no formal review date has been identified for the current approach.

Right to review the above decision

You have the right to request an investigation and review of this decision by the Ombudsman under section 27(3) of the LGOIMA. Further information is available at www.ombudsman.parliament.nz or by calling 0800 802 602.

If you wish to discuss this decision with QLDC, please contact Naell.Crosby-Roe@qldc.govt.nz (Director Democracy Services).

QLDC trusts that the above information satisfactorily answers your request.

Kind regards,

Democracy Services Team
