

# 32 PROTECTED TREES

## 32.1

# Purpose

---

Trees have an important environmental, heritage and cultural role and collectively endow the rural and urban landscape with distinctive environmental quality and character.

The purpose of these provisions is to protect trees that have been identified as having high botanical, amenity and heritage values from avoidable removal. The provisions also recognise and provide for the retention and maintenance of trees that contribute to the amenity, character and heritage values of the Arrowtown Residential Historic Management Zone.

The focus is on the protection of trees from inappropriate removal or trimming, and to manage works within the root protection zone. However, it is recognised that there may be circumstances when substantial pruning or removal are unavoidable due to poor health or damage.

## 32.2

# Objectives and Policies

---

### 32.2.1 **Objective - The protection of scheduled trees and groups of trees from avoidable removal or damage**

Policies

- 32.2.1.1** Identify and schedule in the District Plan the District's protected trees.
- 32.2.1.2** Protect scheduled trees from avoidable removal, removal of the protected tree status or inappropriate trimming or destruction, recognising them as an important part of the character, amenity and heritage values of the District.
- 32.2.1.3** Recognise that where genuine circumstances exist, the removal or significant trimming of protected trees may not be avoidable because the values of the tree for which it was protected have significantly deteriorated, or the tree is causing a hazard to life or property.
- 32.2.1.4** Permit works and maintenance to be undertaken on protected trees where the work will assist in maintaining the health of the tree.
- 32.2.1.5** To schedule for protection examples of existing wilding tree species and hedgerows, in those circumstances where they add substantially to amenity and heritage values, and where it is practicable to manage them so as to avoid their spread in accordance with Objective 34.2.1.

---

**32.2.2 Objective - The protection of trees in streets and public spaces within the Arrowtown Residential Historic Management Zone, recognising their contribution to amenity and heritage values.**

- Policies
- 32.2.2.1** Provide efficiencies to the Council where it is responsible for the conservation, maintenance and management of trees within streets and public spaces.
  - 32.2.2.2** Recognise that trees within streets and public spaces provide a significant contribution to the amenity, heritage and biodiversity values of the Arrowtown Residential Historic Management Zone.
  - 32.2.2.3** Protect trees within streets and public places in the Arrowtown Residential Historic Management Zone while acknowledging the primary function of streets and public spaces.
- 

**32.2.3 Objective - The management and protection of character trees and groups of trees within the Arrowtown Residential Historic Management Zone to ensure the amenity and heritage values of the zone are maintained.**

- Policies
- 32.2.3.1** Identify and schedule in the District Plan, after informing and consulting with the landowner affected, trees and groups of trees within the Arrowtown Residential Historic Management Zone that contribute to the zone's unique character and heritage values.
  - 32.2.3.2** Protect or enhance Arrowtown's unique character and amenity by recognising the contribution trees and groups of trees make to Arrowtown's landscape, cultural identity and historic heritage values.
  - 32.2.3.3** Acknowledge the important role trees and groups of trees have in contributing to the character and historic heritage of Arrowtown, despite that on an individual basis a tree or group of trees may not be significant in stature.
  - 32.2.3.4** Have regard to the reasonable and efficient use of land anticipated in the Arrowtown Residential Historic Management zone, while ensuring the removal or modification of trees or groups of trees does not lead to the cumulative loss of Arrowtown's heritage character and amenity values.
  - 32.2.3.5** To schedule for protection existing examples of wilding tree species and hedgerows which add substantially to the amenity and heritage character of historic Arrowtown, and where it is practicable to manage them so as to avoid their spread in accordance with Objective 34.2.1.
