

FY27 SOI – QLDC Feedback Table

Item	Comments / Actions
We asked you to include some commentary or messaging that better explains the changes in domestic and international growth and a reflection of QAC’s rationale for how they anticipate these percentage differentials will play out in the future (smoothing of the markets).	Updated. Please see pages 22 and 25.
Can we please ask to clarify the reference to the CAA, the review in terms of Qualifying Status, as discussed.	Updated. Please see page 17.
In reference to aeronautical revenue, can you better define the ‘three tiers’, as discussed.	Included. Please see page 22.
Consider including in the introduction a brief explanation of what has changed in the SOI. For example, an updated infrastructure section and refresh of the sustainability section were raised by the team.	Provided in cover letter from Chair to Mayor.
In terms of Growth Assumptions, please consider some commentary on inputs to forecasting and include some of the areas of influence - for example, Southern Way and regional relationships.	Included. Please see pages 18 and 22.
Consider oversight of emissions, what we can influence and what we can control. This may be considered in more detail in the development of the Strategic Plan and then via the Statement of Expectations (SOE). Noting that Council officers will seek to agree a process for the consideration of both components.	Updated. Please see pages 18 and 21.
Please consider adding more commentary to disclosure in regards to “manage GA” reference. Please reference operational impact if any on GA and include a disclosure in the SOI.	Updated. Please see page 34.
Please consider some clarification over how mode shift is measured.	Included. Please see page 33.

Item	Comments / Actions
Can you review the ZQN Northern Land disclosure and consider a refresh inclusive of potential options or opportunities/challenges and the potential timing.	Updated. Please see page 16.
There is a disclosure on P.17 about quieter aircraft technology. Can you consider adding some further disclosure about new-generation aircraft, beyond the commitment to advocacy.	Included. Please see pages 16 and 17.
Please include an undertaking to engage proactively with QAC stakeholders (QLDC) on key issues (August 2026) that are arising from consideration of a refresh of the QAC 10-Year Strategic Plan.	Included. Please see page 2.
