17. CONCLUSION.....	20

1. INTRODUCTION

- 1.1 My name is Vicki Jones. I prepared the section 42A report 2 June 2016 for the Historic Heritage Chapter of the Proposed District Plan (**PDP**). My qualifications and experience are listed in that s42A report.
- 1.2 I have reviewed the evidence filed by other expert witnesses on behalf of submitters, attended the whole of the hearing held 27 - 29 June 2016, and been provided with information from submitters and counsel at the hearing.
- 1.3 This reply evidence covers the following issues:
- (a) the prohibited status for the demolition and relocation of Category 1 features beyond the site;
 - (b) the percentage-based rules relating to demolition and in particular, whether these percentages should be cumulative;
 - (c) clarification of how the rules would manage the effects of a building being deconstructed then reconstructed;
 - (d) clarification of the other methods that Council employs to encourage preservation of heritage, in addition to regulation, including whether the notified PDP includes any relaxation of other rules where they are applied to a heritage feature;
 - (e) extents of Place (**EoP**) - the option of including EoPs in the heritage assessments and incorporating them into the PDP by way of reference. I also address the inclusion of EoPs for Millbrook.
 - (f) whether the relocation of buildings beyond the site should be a separate rule from demolition and whether the policies of relocation beyond and within the site can and should be better linked;
 - (g) the most appropriate method of ensuring that applicants are required to consider all options and to take the option that has the least effect on heritage wherever possible;

- (h) the archaeological rules in relation to whether they will result in unnecessary duplication and specifically responding to the panel's suggestion of including a rule similar to that being proposed for the SNA's; the panel's questions around the appropriateness of a rule managing the effects of the relocation of archaeological features; and the suggestion of defining archaeological sites in the PDP to include post 1900 sites/ features;
- (i) heritage landscape provisions, particularly in relation to the level of detail that is appropriate in the statement of significance and the listing of key features and whether the features need to be further defined/ narrowed as per New Zealand Tungsten Mining Limited's (**NZTML**) submission or retained as more general statements or even made more general / all encompassing, as per Mr Cawte's evidence;
- (j) the definition of category 1 -3 heritage features;
- (k) the definition and/ or use of the term "enhance";
- (l) the definition of "heritage fabric or characteristics";
- (m) acknowledgement of the recent alterations to the former Methodist church (item 251) in Council's assessment;
- (n) scope issues, including changing the rule relating to the interiors of Category 3 buildings; the relaxation of other rules such as density and parking; and the widespread permitted status sought in relation the Antrim Engines, slipway, and cradle (Item 3);
- (o) potential errors, points of clarification, and minor amendments in the PDP, including
 - (i) the listing of the Mill house (Item 76);
 - (ii) the mapping of the Kinross stone buildings (item 91);
 - (iii) the alignment of the heritage precinct in respect of the Pig and Whistle building;
 - (iv) the wording of Item 3; and

- (v) amending the structure of the chapter to better align with the rest of the PDP.

1.4 Where I am recommending changes to the provisions as a consequence of the hearing evidence, I have appended these as **Appendix 1** (Right of Reply (**ROR**) Revised Chapter). These changes include those that I accepted as part of my summary of evidence presented at the hearing on 27 June 2016 with the exception that, having listened to all the evidence presented by Mr Gary Gray on behalf of Tungsten Mining Limited I no longer consider it appropriate to state in the PDP that mining is "likely to" recommence (in response to Mr Carey Vivian's paragraph 4.65), but prefer the version included in Appendix 1 to the s 42A report.

2. THE PROHIBITED STATUS FOR THE DEMOLITION AND RELOCATION OF CATEGORY 1 FEATURES BEYOND THE SITE

2.1 The Panel enquired as to what extent s 32 analysis was undertaken in order to justify the prohibited status for the demolition (including "substantial removal" in the notified PDP) of Category 1 buildings (in Rule 26.6.9). In response I make the following comments:

- (a) the activity status and the Category 1 features themselves were rolled over from the Operative District Plan (**ODP**);
- (b) there was no detailed analysis of the options in relation to this particular rule in the s 32 report (refer Appendix 3 of the s 42A Report);
- (c) pages 28 - 31 of the s 42A report:
 - (i) establish that no owner of a listed Category 1 feature has submitted on the PDP, but that Rule 26.6.9 has been submitted on, as a whole;
 - (ii) provides an assessment of the benefits of prohibited against non-complying status for the demolition of Category 1 features, and concludes that while prohibited status does raise some concerns, on balance, prohibited status is most appropriate.

- (d) while the s 32AA report considers the appropriateness of the rule as a whole, (refer pages 5-6 of Appendix 4 of the s 42A Report) the part of the rule relating to Category 1 features is not thoroughly assessed in isolation due to having also dealt with the matter in the body of the s 42A report and due to the fact it did not appear to be the focus of any submission on the rule.

3. PERCENTAGE-BASED RULES RELATING TO DEMOLITION

3.1 The Panel posed questions around whether the percentage-based rules relating to demolition should be cumulative. In response, I note that this matter was considered in the drafting of the revised chapter and the recommendation was made to include the following policies (now numbered 26.4.1.5(c).d. and 26.4.1.5(d) in Appendix 1)¹ in order to address this matter (emphasis added):

- c) *Avoid the partial demolition or destruction of Category 1 and 2 protected features wherever practical alternatives exist except that in the following circumstances mitigation or remediation of the effects may be appropriate, and the partial demolition or destruction of a protected feature may be acceptable:*
- a. *Where it will avoid significant risk to safety and property or where it will reduce or remove a significant financial burden on the owner;*
 - b. *Where it will result in significant public benefit that could not otherwise be achieved and where that benefit is deemed to outweigh the loss in heritage values (as assessed in accordance with the criteria in section 26.6.28);*
 - c. *Where it is necessary to remove a significant amount of damaged fabric in order to ensure the conservation of the protected feature;*
 - d. *Where no adverse cumulative effects will result from approving successive partial demolitions or alterations.*
- d) *Provide for the partial demolition of Category 3 protected features, on the condition that their heritage significance, including the cumulative effects on its significance, are not reduced.*

¹

These were numbered 26.5.1.5(c) and (d) (on page 26/5 of the s42A Appendix 1).

3.2 Cumulative effects are also considered in Policies 26.4.1.2 and 26.4.2.1 and included as a matter of discretion for Rules 26.6.9 and 26.6.9(i) of the revised chapter.

3.3 However, should the panel not consider this to be sufficient then, in respect of partial demolition I agree that it would provide a high level of certainty to state that the maximum extent of demolition which constitutes partial demolition (i.e. 69% of all heritage fabric) is cumulative and shall be measured from the date that the PDP is made operative. This change has been made to the revised chapter in **Appendix 1**. While this imposes some additional monitoring and enforcement issues, it will incur only a minor additional cost in that all alterations and partial demolition will require resource consent and that, regardless of a need to monitor incremental change, it is common practice to consider all previous approvals when processing a resource consent.

4. MANAGEMENT OF EFFECTS OF A BUILDING BEING DECONSTRUCTED THEN RECONSTRUCTED

4.1 The Panel has sought clarification as to how the rules in the Historic Heritage Chapter would manage the effects of a building being deconstructed then reconstructed in generally the same place. Having liaised with Mr Richard Knott on this matter and studied the rules further, it is my opinion that the scenario outlined at the hearing by Commissioner Nixon would fall under the definition of total demolition and/ or relocation and is not something that should be encouraged. With reference to the ICOMOS Charter,² Mr Knott has advised that the demolition of a building and its rebuilding can significantly impact upon the authenticity and integrity of the building and would only, in very exceptional circumstances, be considered to be doing 'as little as possible' (referring to the definition of conservation in the ICOMOS Charter, in footnote 2).

²

The ICOMOS New Zealand Charter for the Conservation of Places of Cultural Heritage Value (Revised 2010) defines conservation as:

"Conservation means all the processes of understanding and caring for a place so as to safeguard its cultural heritage value. Conservation is based on respect for the existing fabric, associations, meanings, and use of the place. It requires a cautious approach of doing as much work as necessary but as little as possible, and retaining authenticity and integrity, to ensure that the place and its values are passed on to future generations."

5. OTHER METHODS THAT COUNCIL EMPLOYS TO ENCOURAGE PRESERVATION OF HERITAGE, IN ADDITION TO REGULATION

- 5.1** The Council operates a heritage incentive grant scheme as outlined on page 44 of my s 42A report.
- 5.2** Mr Barr has also advised me that the notified PDP does not currently include any relaxation of other rules where they are applied to a heritage feature (I have not had an opportunity to do a full review myself).
- 5.3** However, as the author of the PDP Queenstown Town Centre zone chapter, I can confirm that Policy 12.2.2.5³ provides some dispensation in terms of the processing of an over-height building where the site also includes a heritage feature and that policy 12.2.4.2⁴ will acknowledge that verandas may not be appropriate or necessary in applications involving a heritage building.
- 5.4** Other than for subdivision, I do not consider there to be scope in the submissions made on the Historic Heritage Chapter to relax other District Plan rules as they apply to heritage items. Regardless, my opinion is that such incentives should be an integral part of the PDP.

6. EXTENT OF PLACE - INCLUDING THESE IN THE HERITAGE ASSESSMENTS AND A RESPONSE TO EXTENTS OF PLACE SUGGESTED BY MILLBROOK COUNTRY CLUB

- 6.1** The chapter would be more streamlined if the Extents of Place (**EoP**) were included in the Heritage Assessments and then incorporated into the PDP via reference. However, it is beyond the scope of this hearing to make such a recommendation as the assessments were not notified along with Stage 1 of the PDP, were not included in the s 32, and contain considerably greater detail than only the EoPs. Instead, I have recommended a solution that is within the scope of this hearing and which I consider to be more appropriate than the

³ "12.2.2.5 Allow buildings to exceed the non-complying height standards only in situations where the proposed design is an example of design excellence and building height and bulk have been reduced elsewhere on the site in order to:
(a) Reduce the impact of the proposed building on a listed heritage item; or..."

⁴ "12.2.4.2 Ensure that the Town Centre remains compact and easily walkable by avoiding outward expansion of the Town Centre Zone. Encourage walking to and within the Town Centre by improving the quality of the pedestrian experience by:

...
(d) Encouraging the provision of verandas along pedestrian-oriented streets, while acknowledging that verandas may not be appropriate or necessary in applications involving a heritage building; or where no verandas exist on adjoining buildings."

notified chapter. I suggest that the mapping of the EoPs can be improved in the decision version if the Panel endorses this approach, and Council could assist in this respect.

6.2 Mr Knott has considered the EoPs suggested by Mr Daniel Wells on behalf of Millbrook Country Club and accepts the 'curtilage' shown on page 4 of Mr Well's plans as an appropriate EoP for Item 71 (the stone cottage (Mcauley), Malaghans Road). I have included this in the revised chapter in **Appendix 1**.

6.3 Mr Knott further advises that the suggested EoP for both PDP Item 93 (Butel's Flourmill (original foundations and stone wall), Off Butel Road, Millbrook Area) and new item 82 (Millbrook stables, implement shed, and the blacksmith's building/ smoker) (refer page 7 of the maps Mr Wells tabled at the hearing) seems appropriate as, beyond this, the setting has been even more modified and there is little point in including it. Mr Knott also notes that, in the final version of the Historic Heritage Chapter it would be beneficial for separate EoPs to be shown for each of the two items. For the purpose of this right of reply, due to the time constraints inherent in the process, this has only been included in draft form in the revised chapter in **Appendix 1**.

7. RELOCATION RULES AND POLICIES

7.1 Ms Gillies, in her evidence, and the Panel raised the issue of whether the relocation of buildings beyond the site should be a separate rule to demolition. The Panel also queried whether the respective policies relating to relocation beyond and within the site should be better linked within the chapter.

7.2 I do not consider the impact of having one rule that specifically refers to both demolition and relocation beyond the site to be significantly different from having a separate rule for relocation. What I am clear on is:

- (a) relocation needs to be very clearly specified (as in the revised chapter contained in my s 42A report or through a separate rule) as opposed to being simply referred to within the term 'demolition', as was the case in the notified PDP.⁵ With the latter approach the

⁵

Demolition

Works that result in damage, substantial removal from the site, destruction of any, or all, significant elements of the historic fabric or characteristics of a building or feature, involving (but not limited to) the removal or replacement of walls, windows, ceilings, floors, roofs and any associated additions.

activity of relocation can easily be missed and is a crucial matter in terms of heritage protection;

- (b) the same activity status should be afforded to demolition and relocation beyond the site and different statuses should be applied to relocation within and beyond the site; and
- (c) additional policies should be applied to relocation, as is done in the revised chapter contained within my s 42A report (and in **Appendix 1**), as it does require additional considerations.

7.3 I have discussed this with Mr Knott who supports treating relocation beyond the site and demolition in the same manner and considers that they should be contained within a single rule. In his view, the protected features would lose significant authenticity and integrity if relocated and in many cases once moved would no longer satisfy the criteria for being identified as a heritage item. Mr Knott cites the definition of relocation from the ICOMOS Charter⁶ in support of his view.

7.4 In my opinion, in practical terms it makes no difference whether the two activities are captured in the same or separate rules in the Historic Heritage Chapter; particularly given that the revised chapter includes some additional policies in respect to relocation beyond the site. The revised chapter attached at **Appendix 1** retains the two activities in a single rule.

7.5 I am of the view that relocation within and beyond the site are two very different activities. Therefore, other than to amend the order of the policies so that those relating to relocation within the site directly follow those relating to relocation beyond the site, I do not consider that any other linkage between the two is necessary.

⁶

Relocation - *The on-going association of a structure or feature of cultural heritage value with its location, site, curtilage, and setting is essential to its authenticity and integrity. Therefore, a structure or feature of cultural heritage value should remain on its original site.*

Relocation of a structure or feature of cultural heritage value, where its removal is required in order to clear its site for a different purpose or construction, or where its removal is required to enable its use on a different site, is not a desirable outcome and is not a conservation process.

In exceptional circumstances, a structure of cultural heritage value may be relocated if its current site is in imminent danger, and if all other means of retaining the structure in its current location have been exhausted. In this event, the new

8. AMENDMENTS TO POLICIES TO ENSURE THAT APPLICANTS CONSIDER ALL OPTIONS

8.1 Stemming from Ms Gillies' opinion that the 'proviso' to Policy 26.4.1.6, which reads "*Applicants will be required to show that the above options have all been investigated*" also be applied to Policies 26.4.1.5 and 26.4.1.8, the Panel suggested that the proviso may warrant its own stand-alone policy. One of Ms Gillies' specific concerns relates to proving there is no productive use for a building and/ or that it is not financially viable to retain or maintain it. I agree that there is a risk that planners and applicants with limited knowledge of heritage principles will take the 'easy option' and restrict their interpretation only to those examples listed.

8.2 The policies where the matter of ensuring all options are fully exhausted is most relevant are Policies 26.4.1.5(a) and (c), 26.4.1.6, and 26.4.1.7(a). While phrases used in those policies such as "exceptional circumstances" and "other alternatives have been exhausted" provide, in my opinion, reasonably strong direction, I agree that greater clarity should be provided regarding the expectation that all options be investigated and documented and proof be provided regarding the extent of financial burden and/ or inability to find a productive use for a site.

8.3 I do not favour a stand-alone policy as I consider this is too disjointed and unclear. However I have suggested a number of amendments to address Ms Gillies' concern and these have been included in the revised chapter attached at **Appendix 1**.

9. RULES RELATING TO SCHEDULED ARCHAEOLOGICAL SITES

9.1 In response to various submitters seeking the deletion of the rules, the Panel has raised concerns in relation to whether the archaeological site rules will result in unnecessary duplication of the restrictions imposed by the Heritage New Zealand Pouhere Taonga Act 2016 (**HNZPTA**) and has specifically sought a response to the possibility of including a certification type rule similar to that being proposed for the Significant Natural Areas (**SNA**) through the Rural Hearing Stream 2.

9.2 As I understand it the relevant rule that was being referred to is (in Mr Barr's right of reply):

33.3.4.4

Indigenous vegetation clearance within the Ski Area Sub Zones on land administered under the Conservation Act 1987 is exempt from the rules in Tables 1 to 4 where the relevant approval has been obtained from the Department of Conservation, providing that:

- (a) *The indigenous vegetation clearance does not exceed the approval by the Department of Conservation;*
- (b) *Prior to the clearance of indigenous vegetation, persons shall provide to the Council the relevant application and the approval from the Department of Conservation; and,*
- (c) *The Council is satisfied that the application information submitted to the Department of Conservation adequately identifies the indigenous vegetation to be cleared and the effects of the clearance*

9.3 The rule framework in the notified Historic Heritage Chapter took a similar approach in that it made any alterations to an archaeological site a permitted activity if an authority had already been approved and there were no other effects. Activity status was restricted discretionary or discretionary if an authority had already been approved and there *were* other minor or more than minor effects. While HNZ and Ms Gillies supported the principle of having rules relating to archaeological sites, no one submitted in support of the specific rules proposed; all citing the lack of clarity as one reason.

9.4 I refer to pages 25-27 of the s 42A report and pages 12-13 of the s 32AA evaluation (in Appendix 4 of the s 42A report) for discussion on this matter and the reasons for supporting the rules proposed in the s 42A revised chapter.

9.5 At the core of the debate around options is the limited range of effects that can be considered by authorities issued under the HNZPTA, in that they are unable to consider the effects arising from the partial demolition or relocation of an archaeological feature and cannot consider effects beyond the specific boundaries of the archaeological site itself. Furthermore, the authority process does not enable any public participation beyond the landowner. Therefore to include a rule which exempts an activity from requiring resource consent provided an authority has been obtained (with or without further provisos) means that often many environmental effects will not be considered and Council's obligations regarding the protection of historic heritage would not be fulfilled.

9.6 While the notified rules attempted to address this through reference to 'other effects', I consider that the notified rules are unreasonably uncertain and I am aware that Council planners have encountered a number of problems in the administration of these rules over the past months, including:

- (a) the fact that HNZ prefers to process authorities following or in parallel with a resource consent application and not before (in case changes occur through the resource consent process);
- (b) the need to determine whether effects would be minor or more than minor in order to determine the activity status; and
- (c) the uncertainty as to what might constitute 'other effects'.

9.7 In summary, I am of the view that a rule of the type proposed for SNAs would not be the most appropriate method of managing effects on the 20 archaeological sites that are proposed to be listed in the revised chapter and that the rules contained in the revised chapter attached at **Appendix 1** are the most appropriate.

9.8 It also needs to be noted that, as modified in the revised chapter and supported by HNZ, these rules ONLY apply to those archaeological sites that are scheduled in the PDP and not to all archaeological sites.

9.9 The Panel specifically sought further clarity on Rule 26.6.25 of the revised chapter, which reads:

26.6.24 Relocation affecting an archaeological site

Any activity that results in an archaeological feature associated with an archaeological site listed in Section 26.10 being relocated within the same site.

9.10 I interpret this to mean the relocation of any pre-1900 building or structure, pursuant to the definition in the HNZPTA. This definition was previously included in Section 26.3.1 of the Chapter but I recommend relocating this to the 'Terms used in this chapter' section in the revised chapter for ease of reference. In my view, it is possible to relocate an archaeological feature in the manner anticipated by the rule and is appropriate to require a resource

consent for such an activity in that it cannot be considered through the authority process. The Panel is also referred to Mr Matthew Schmidt's responses to questioning in this regard, which concurred with my view. I recommend amending the rule to clarify that an archaeological feature is as defined in the HNZPTA and includes any building or structure or part thereof, which is associated with pre1900 human activity and which provides or may provide through investigation by archaeological methods evidence relating to the history of NZ. It may also be clearer if the heading of the rule specifies that the rule relates to the relocation of a feature.

- 9.11** The Panel has also queried whether it would be appropriate to also regulate the relocation of post-1900 features, which might be achieved by either redefining 'archaeological feature or site' to include newer items for the purpose of the District Plan or through adding the term 'heritage feature' to this rule. In my view an amendment of this nature is appropriate as post-1900 heritage features are known to exist within the listed archaeological sites, which are not individually listed in the District Plan but the removal of which could adversely affect the archaeological site within which it is located. However, I do not consider there is scope in the submissions to make this amendment in that the notified version of Table 5 was limited to the alteration of the archaeological sites and no one sought that the rules extend beyond that. If the Panel form a different view on scope then I suggest that the rule be amended to refer to 'archaeological feature or heritage feature'.

10. HERITAGE LANDSCAPE PROVISIONS

- 10.1** Various aspects of the heritage landscape provisions (section 26.12 and rule 26.6.27) were the subject of numerous Panel questions of the Council and submitters. Matters that I wish to respond to relate to:
- (a) the appropriate level of detail that should be included in the statement of significance and the listed key features to be protected. I.e. whether I consider the features subject to Rule 26.6.27 (last bullet point) need to be further defined/ narrowed as per NZTML's submission or retained as more general statements (or even made more general/ all encompassing, as per Mr Cawte's evidence); and

(b) whether, at least in the context of heritage landscapes, archaeological features protected by Rule 26.6.27 should include post 1900 features/ sites.

10.2 Based in part on the evidence of Mr Knott and Mr Cawte, in my opinion the features which will require a discretionary resource consent to destroy or remove pursuant to Rule 26.6.27 should be kept as broad as possible. This is contrary to the submission of NZTML, which seeks to further narrow application of Rule 26.6.27 by more narrowly defining the key features to be protected. I note that Mr Cawte's and Mr Knott's responses to the Panel's questioning on this matter do not appear to support the submission of NZTML.

10.3 As such, I support retaining the revised chapter (as amended to refer to the "key features to be protected" within the rule, as proposed by Mr Vivian), which requires consent for the destruction or removal of any heritage feature identified in either the statement of significance or key features section to obtain consent. This encapsulates a wide range of sites and features and is not constrained only to archaeological sites as defined by the HNZPTA but also includes any post 1900 sites that have heritage value.

10.4 I do not consider it necessary to extend the definition of archaeological features or sites to include post-1900 features/ sites in relation to the heritage landscape rules. In the context of the heritage landscape rule (26.6.27) and the related statements of significance or key features to be protected sections (26.12), the term 'heritage feature' is used in the rule and this captures all post 1900 features of heritage value. Additionally, in the Glenorchy Heritage Landscape where there is clearly considerable post 1900 heritage, the features are specifically identified in sections 26.12.8 and 26.12.9 and clause 26.12.9.3 includes a 'catch all' rule which protects 'all other known heritage places'.

10.5 For added clarification as to what constitutes an archaeological feature or site, I have recommended cross referencing the definition of archaeological sites in the rule. This amendment is included in the revised chapter attached as **Appendix 1**.

11. THE DEFINITION OF CATEGORY 1 - 3 HERITAGE FEATURES

11.1 Mr Knott drafted these definitions and I relied on his advice in including them in the s42A revised chapter. I have therefore sought his opinion on the matters traversed with Ms Gillies. Mr Knott advises that his concern with Ms Gillies' proposed amended definition is whether, if Category 1 is defined as being "very significant nationally" this could be interpreted as meaning that only HNZ Category 1 buildings can be included in the District Plan Inventory, where in some cases this may not be appropriate and that, in Mr Knott's opinion, it is important to also protect other significant items as Category 1 items.

11.2 Having considered this, I propose amending the definitions in a manner similar but not identical to that suggested by Ms Gillies. This change has been included in the revised chapter attached at **Appendix 1**.

12. THE DEFINITION AND/ OR USE OF THE TERM "ENHANCE"

12.1 Various submitters have sought the inclusion of the term 'enhance' in policies (and these are accepted in the s 42A report) and others have since provided evidence (either written or through questioning) relating to concerns around misinterpretation of the term and the fact it can mean very different things to different people.

12.2 The revised chapter (attached to the S42A report) includes the term 'enhance' in a number of places. The term:

- (a) has been added to Objective 26.4.1 ("historic heritage is... enhanced") and policy 26.4.1.2 ("... and enhance historic heritage") in response to submissions;
- (b) is included in new policies 26.4.1.7, relating to enabling "alterations and additions ... in a manner that ... enhances heritage values" and 26.4.1.6, relating to enabling relocation where it will "...enhance the heritage significance of the feature;
- (c) has been added to Policy 26.4.2.1 relating to "encouraging ... adaptations that enhance heritage values"; and

(d) is included in Objective 26.4.4 and 26.4.4.1, relating to enhancing heritage features where possible, through means such as interpretation and the relaxation of rules. No submitter opposed the Objective and it remains unchanged from the notified version.

12.3 As outlined above, the term is used in various places to promote enhancing historic heritage; enhancing heritage significance (i.e. undertaking works which would result in upgrading the category of a feature); enhancing heritage values; and enhancing the heritage feature itself.

12.4 Having spoken with Mr Knott regarding the use of the word in the District Plan, he and I can both see some inherent difficulties in interpreting what is meant by "enhancing the heritage feature".

12.5 Mr Knott does not consider it is possible to enhance the heritage significance of an item (i.e. undertaking works which would actually result in an upgrading the Category of a feature). However, to the contrary, neither of us see any practical or interpretative difficulties with policies that refer to enhancing historic heritage values or heritage values. Changes have been recommended to the various policies in line with this and these are reflected in the revised chapter attached at **Appendix 1**.

13. THE DEFINITION OF "HERITAGE FABRIC OR CHARACTERISTICS"

13.1 I note Ms Gillies' concerns regarding the inclusion of three examples in the definition and have also carefully considered the comments of other experts who responded to questioning on this issue. In response, I recommend amending the definition to acknowledge that where a heritage assessment exists on Council's records, this will most likely provide a good record of what constitutes the heritage fabric of a particular item and that where such an assessment does not exist, the examples should be considered but clarify that these are not exhaustive.

13.2 While I entirely understand the concern Ms Gillies' concern regarding retaining the examples, on balance, I consider it is preferable to removing them altogether.

14. THE ALTERATIONS TO THE FORMER METHODIST CHURCH (ITEM 251)

14.1 In response to paragraph 2.6 of Ms Anna Marie Chin's evidence in which she highlights the fact that the building has undergone extensive modification since the heritage assessment was undertaken, I refer the Panel to pages 10 -12 of Mr Knott's evidence. In those paragraphs, he traverses this issue fully and clarifies that he has reached his conclusions regarding its listing in the full knowledge that further alterations have occurred since the assessment was commissioned by the Council.

15. SCOPE ISSUES

15.1 I consider Ms Gillies' evidence on changing the rule relating to the interiors of Category 3 buildings to be beyond scope as no submitter sought any change to the permitted status for interior alterations for Category 3 buildings.

15.2 I question whether the widespread permitted status sought in relation to the Antrim engines, slipway, and cradle (Item 3) (refer paragraph 8 of Mr Farrell's summary of evidence) is within scope of Real Journeys' submission, in that the submission only seeks to change the Category from 2 to 3, rather than to de-list it, which is what would be required to achieve the permitted status he refers to. I note that the submission does include the following point but in my opinion it is unclear as to what works or item it refers to and does not provide the necessary scope; in fact seeking that all rules do apply to such works:

"Insert a new rule or exemption clause to clarify that the rules do apply to works associated with the "TSS Earnslaw" and that any such works are a permitted activity."

16. POTENTIAL ERRORS, NEED FOR CLARIFICATION, AND MINOR AMENDMENTS IN THE PDP

Mill House

16.1 In my opinion, the Mill House (Item 76) has not necessarily been listed in the PDP in error and it would be presumptuous to assume this. There is significant background to this issue, which the Council will share with the submitter via a separate process but, in summary, for the benefit of the Panel:

- (a) the Mill House was identified as being part of the listed HNZ (Historic Places Trust) flourmill complex at least as far back as 1977, according to a 1977 board minute, which shows that the Miller's House (now known as the Mill House) was part of the 1977 registration – *'Wakatipu Flourmill complex – oat drying building, stables and miller's house;'*
- (b) The Mill House was not listed in the 1981 Queenstown Lakes District Scheme and so it seems it was not simply a roll-over of a transitional plan but rather, was purposely added in the 1995 District Plan;
- (c) the notified 1995 PDP listed the Mill House as a Category A building but the District Plan Mill House entry did not include any NZHPT category listing (whereas such listings were recorded in that plan for other items where they existed) indicating that, on the face of it, the Mill House was not listed simply because it was (accidentally or correctly) thought to form part of the flourmill complex HNZ listing. In fact, at the time the PDP was notified, it appears that the flour mill complex was actually not listed by HNZ (Historic Places Trust) as, Historic Places Trust had temporarily removed this along with other items from its register as being 'deficient.' The flourmill complex was only officially returned to the register in 2012 following further research;
- (d) there were presumably submissions opposing the 1995 District Plan listing of the Mill House as the item is now listed as a Category 3 item in the ODP, rather than a Category A/ 1 building as notified in 1995; and
- (e) it is my understanding from the evidence that both Ms O'Dea and Mr Knott have agreed that the inclusion of the HNZ reference alongside the Mill House entry is an error but not that the listing of the item in the District Plan itself is necessarily an error.

Kinross Stone Buildings

- 16.2** The planning maps accurately show the location of the Kinross stone buildings (item 91). A plan from Council's GIS is attached as **Appendix 2** showing item

91 overlaid an aerial photograph. While the item 91 annotation on the GIS relates to the ODP, a comparison between the ODP and PDP maps confirms that item 91 is shown in the same place on both.

Queenstown Courthouse Heritage Precinct

16.3 The boundary of the heritage precinct in respect of the Pig 'n' Whistle building has been slightly realigned so as to sit 0.5m from the face of the building and clarification of its exact location has been added to the map contained in the Historic Heritage Chapter.

Chapter Structure

16.4 The structure of the chapter has been amended to better align with the rest of the PDP in that the 'other rules' section now follows the 'objectives and policies'. I have opted to leave the 'identification and protection' and 'information requirements' sections under the purpose.

Changes accepted at hearing

16.5 Mr Knott has confirmed that he is supportive of the amended wording of the Antrim Engines listing (Item 3) as suggested in paragraph 2.5 of Ms Fiona Black's Summary of evidence. This change has been included in the revised chapter attached at **Appendix 1**.

16.6 Unless otherwise stated above, all other amendments to the revised chapter proposed by other experts that I accepted in my Evidence Summary are included in the attached ROR revised chapter attached at **Appendix 1**.

Changes to planning maps

16.1 Item 37 (Earnslaw) has been removed from the chapter and the planning maps (PDP Map 36).

16.2 Item 68 (Glenarm cottage) has been removed from the amended chapter and from the planning maps (PDP Map 36)

17. CONCLUSION

17.1 Overall, I consider that the ROR revised chapter as set out in **Appendix 1** is the most appropriate way to meet the purpose of the RMA.

A handwritten signature in black ink, appearing to read 'V Jones', with a horizontal line drawn through the middle of the letters.

Red underlined text for additions and ~~red strike~~ through text for deletions, Appendix 1 to Vicki Jones' Right of Reply, dated 6 July 2016.

Black underlined text for additions and ~~strike through~~ text for deletions, Appendix 1 to Vicki Jones' s42A report, dated 2 June 2016

26 Historic Heritage

26.1 Purpose

The purpose of this chapter is to promote the sustainable management of the District's historic heritage¹ features. These features are an important part of the amenity and character of our natural, physical and cultural heritage. Protecting these helps retain the District's character, history, and sense of place. This will be achieved by identifying and recognising heritage values, which can then be offered protection through the Plan.

Accordingly, this chapter contains provisions relating to:

- the Inventory of Protected Features, which includes all listed buildings, structures, and features
- Heritage Precincts
- Heritage Landscapes
- Archaeological sites
- Sites of significance to Maori.

Pursuant to Section 86(B)(3) of the RMA, the rules applicable to Historic Heritage have immediate legal effect from the date of Notification.

26.2 Identification and Protection

The District's most significant known heritage features are represented in the Inventory of Protected Features ('the Inventory'). ~~The number of individual features stands at several hundred and – Although they all have a level of heritage value, some can be grouped and they are categorised according to their relative level of importance, which This in turn allows a different scales of protection to be applied. For buildings, structures and features, this means that there are three categories; 1 to 3, with Category 1 being the most significant. It is noted that not all historic heritage will necessarily be captured in the Council's schedule, and due regard to matters of national importance will still be required.~~

Comment [MSOffice1]: #426

The Queenstown Lakes District Council ~~believes that its schedule of protected features is well informed and robust. It also acknowledges that it this is a snapshot of protected features as they stood at a particular point in time and may subsequently change. In order to accommodate anticipated changes it will review this schedule at the midpoint in the life of the Plan (i.e., in five years from becoming Operative.) The effectiveness of the Inventory will be monitored and reviewed and, if appropriate, a plan change initiated to ensure the Inventory remains current. Nominations for inclusions, removals, or amendments to Categories for individual protected features will be are welcomed from the public. Such nominations are encouraged to include , but must contain sufficiently~~

Comment [MSOffice2]: #426

Comment [MSOffice3]: #798, #426

¹ Sec 2A RMA

HISTORIC HERITAGE 26

detailed and robust reports, using the evaluation criteria contained in the District Plan in line with assessments that it would be advantageous to include:

- For heritage precincts and landscapes, a report from a appropriately qualified and experienced Conservation/ Landscape Architect is required. These may include site specific reports from government bodies with a remit for heritage, such as Heritage New Zealand Pouhere Taonga and the Department of Conservation. **Comment [MSOffice4]: #621**
- For sites of significance to Maori, a detailed assessment of the extent of the site and related values must be obtained from prepared by the appropriately mandated iwi.
- For individual buildings and structures, a report from a suitably qualified Conservation Architect, using the Council's criteria and, for Category 1 features, a Conservation Plan is encouraged. Any Conservation Plan should be prepared in accordance with Heritage New Zealand's Best Practice Guidelines. **Comment [MSOffice5]: #621**
Comment [MSOffice6]: #426
- For archaeological sites, a detailed assessment by a suitably qualified and experienced archaeologist. **Comment [MSOffice7]: #621**

~~They must~~ It is preferable that nominations include the written consent of the owners or where this has not been obtained, that they advise what consultation has occurred with the owner.

26.2.1 Definitions of listed Heritage Categories 1 - 3

Comment [MSOffice8]: #604

(i) Category 1

The heritage resource warrants the highest level of protection because it is extremely significant to the District and is often also extremely very significant; regionally and/ or nationally. Category 1 shall include all places of greatest historical or cultural heritage significance including but not limited to all features in Category 1 of the Heritage New Zealand 'New Zealand Heritage List/ Rārangī Kōrero' ('the List').

Comment [SG9]: #604

Comment [SG10]: #604

(ii) Category 2

The heritage resource warrants permanent preservation protection because it is very significant locally and/ or to the District.

Comment [SG11]: #604

(iii) Category 3

Preservation Protection of the heritage resource is encouraged as it is significant to the district. The Council will be more flexible regarding significant alterations. Category 3 shall include all other places of special historical or cultural value

Comment [SG12]: #604

Comment [SG13]: #604

26.3 Information Requirements

Comment [MSOffice14]: #604, #FS1098

Development affecting historic heritage can be a complex matter because of the sensitivity of the values associated with them. ~~Users of the Plan are directed to submit sufficient detail with such applications to allow Council Planners to process these applications. The evaluation criteria contained in this chapter shall form the basis of any Assessment of Effects on historic heritage information above gives an indication of the level of detail required, but this will be decided on a case by case basis, and will be proportionate to the level of effects. Council encourages Early consultation is encouraged~~ on development proposals with heritage professionals, Heritage New Zealand, and community heritage groups, before the design stage.

HISTORIC HERITAGE 26

26.3.1 Archaeology Alert Layer

~~Unless the context otherwise requires, subject to section 42(3), the HNZPTA 2014² defines archaeological sites as:~~

Comment [MSOffice15]: #604

- ~~(a) any place in New Zealand, including any building or structure (or part of a building or structure), that~~
- ~~(i) was associated with human activity that occurred before 1900 or is the site of the wreck of any vessel where the wreck occurred before 1900;~~
- ~~and~~
- ~~(ii) provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand; and~~
- ~~(b) includes a site for which a declaration is made under section 43(1)~~

~~The HNZPTA 2014³ makes it unlawful to destroy or modify or cause to be destroyed or modified the whole or any part of an archaeological site without the prior authority of Heritage New Zealand. This is a separate process to obtaining any resource consents required under this District Plan but is an important step for applicants to consider when preparing a resource consent application which might affect an archaeological site. An 'archaeological site' is defined in the HNZPTA 2014 and this definition is also included in the 'Terms used in this chapter' section (26.6) of this chapter.~~

Comment [MSOffice16]: #604

~~Given the large number of archaeological sites within the District, it is not possible to map them all for the purposes of this Plan. Consequently, in order to assist prospective applicants, an alert layer is maintained by Council, which has been populated that identifies particularly significant groups of sites or significant sites with unknown extents. This layer is for information purposes only and users of the Plan are referred to early consultation with Heritage New Zealand. The layer can be viewed through the Council's online GIS mapping system. The alert layer does not necessarily contain all archaeological sites but is intended to provide applicants with an easily accessible means of undertaking an initial check of the subject site. The alert layer will be updated as new information is made available to the Council. It does not form part of the District Plan planning maps.~~

Comment [MSOffice17]: #621

~~Other Relevant Provisions and Rules~~

~~District Wide Rules~~

~~Attention is drawn to the rules elsewhere in the Plan that may apply in addition to the rules in this chapter. Where rules are breached in those other chapters, then resource consent will be required. All provisions referred to are in the Operative District Plan, unless otherwise stated as Proposed District Plan (PDP). This includes, but is not limited to:~~

Comment [SG18]: Relocation to ensure consistent format with other PDP chapters, following Panel suggestion.

~~Earthworks~~

~~Signs~~

~~Town Centres (PDP)~~

~~Protected Trees (PDP)~~

~~District Wide~~

² Heritage New Zealand Pouhere Taonga Act 2014

³ Heritage New Zealand Pouhere Taonga Act 2014

HISTORIC HERITAGE 26

Attention is drawn to the following District Wide chapters. All provisions referred to are within Stage 1 of the Proposed District Plan, unless marked as Operative District Plan (ODP):

1 Introduction	2 Definitions	3 Strategic Direction
4 Urban Development	5 Tangata Whenua	6 Landscapes
24 Signs (18 ODP)	25 Earthworks (22 ODP)	29 Transport (14 ODP)
27 Subdivision	28 Natural Hazards	32 Protected Trees
30 Utilities and Renewable Energy	31 Hazardous Substances (16 ODP)	35 Temporary Activities and Relocated Buildings
33 Indigenous Vegetation	34 Wilding Exotic Trees	Planning Maps
36 Noise	37 Designations	

26.4 Objectives and Policies

Note: Refer to 26.6 for definitions of the following terms used in this chapter: Protected feature, total demolition, partial demolition, relocation, heritage significance, and setting.

26.4.1 ~~Objective - To recognise and protect historic heritage features in the District from the adverse effects of land use, subdivision and development.~~

Comment [MSOffice19]: #519, #598

Historic heritage is recognised, protected, maintained, and enhanced

Comment [MSOffice20]: #519

Policies

26.4.1.1 Ensure historic heritage features within the District that warrant protection are recognised in the Inventory of Protected Features.

26.4.1.2 ~~Protect, maintain, and enhance historic heritage values features against while managing the adverse effects of land use, subdivision, and development; ensuring that all including cumulative effects are considered and that the management of adverse effects is proportionate to the level of significance of the protected feature.~~

Comment [MSOffice21]: #519, #598

26.4.1.3 ~~Require the mitigation of development affecting historic heritage, where it cannot be reasonably avoided, to be proportionate to the level of significance of the feature. Where effects on historic heritage cannot be reasonably avoided, effects shall be mitigated to an extent that is proportionate to the level of significance of the feature.~~

26.4.1.4 Enable activities to occur within the heritage setting of a feature provided the heritage significance of the feature is protected, by ensuring:

Comment [MSOffice22]: #368, #524, #604, #621, #672, #688, #696, #726

- The form, scale and proportion of the development, and the materials used do not detract from the protected feature(s) located within the setting;
- The location of the development respects and does not degrade any relationship that exists between the setting and the protected feature(s), and which contributes to the values identified for the protected feature(s);
- Existing views of the protected feature(s) from adjoining public places (and publicly accessible areas within the scheduled heritage site) are maintained as far as is practicable; and
- Network utilities and natural hazard mitigation activities within the setting are designed, located, and/or screened to be as unobtrusive as possible.

HISTORIC HERITAGE 26

26.4.1.5

In relation to demolition, ~~destruction~~, and relocation beyond the site:

Comment [MSOffice23]: #604

a) Avoid the total demolition, ~~destruction~~, or relocation of Category 2 protected feature(s) beyond the site unless:

Comment [MSOffice24]: #604

Comment [MSOffice25]: #604

a. Exceptional circumstances render all other alternatives impractical ~~and evidence of this is provided~~; and

Comment [MSOffice26]: #604

i. A feature or part of a feature poses a significant risk to safety or property ~~and evidence of this is provided~~; and/ or

Comment [MSOffice27]: #604

ii. The feature is unable to serve a productive use and retaining it imposes an unreasonable financial burden ~~and evidence of this is provided~~; and

Comment [MSOffice28]: #604

b. Specifically in relation to relocation:

i. The relocation is necessary to facilitate the ongoing use or protection of the building or ensure public safety; and

ii. Measures are in place to minimise the risk of damage to the feature; and

iii. The heritage values of the feature in its new location are not significantly diminished.

b) Discourage the total demolition or relocation of Category 3 features beyond the site.

c) Avoid the partial demolition ~~or destruction~~ of Category 1 and 2 protected features wherever practical alternatives exist except that in the following circumstances mitigation or remediation of the effects may be appropriate, and the partial demolition ~~or destruction~~ of a protected feature may be ~~unavoidable acceptable~~:

Comment [MSOffice29]: #604

Comment [MSOffice30]: #688, #672, #696, #726.

Comment [MSOffice31]: #604

Comment [MSOffice32]: #604

a. Where it will avoid significant risk to safety and property or where it will reduce or remove a significant financial burden on the owner ~~and evidence of this is provided~~;

Comment [MSOffice33]: #604

b. Where it will result in significant public benefit that could not otherwise be achieved ~~and where that benefit is deemed to outweigh the loss in heritage values (as assessed in accordance with the criteria in section 26.6.28)~~;

c. Where it is necessary to remove a significant amount of damaged fabric in order to ensure the conservation of the protected feature;

d. Where no adverse cumulative effects will result from approving successive partial demolitions or alterations.

d) Provide for the partial demolition of Category 3 protected features, on the condition that their heritage significance, including the cumulative effects on its significance, are not reduced.

Comment [MSOffice34]: #604

26.4.1.6

~~26.5.1.8~~ With regard to the relocation of protected features within the site:

Comment [MSOffice35]: Re-ordering to better link relocation policies in response to Panel comments

a) Avoid the relocation of Category 1 and 2 features within the same site unless:

Comment [MSOffice36]: #604

i. It is necessary for the long term viability of the feature ~~and evidence of this is provided~~; and

Comment [MSOffice37]: #688, #672, #696, #726.

ii. Other alternatives have been exhausted ~~and evidence of this is provided~~; and

Comment [MSOffice38]: #604

Provided the relocation will maintain ~~or enhance~~ the heritage significance of the feature, as assessed using the evaluation criteria in section 26.6.28.

Comment [MSOffice39]: #604

b) Provide for the relocation of Category 3 protected features within the same site, where the relocation will maintain ~~or enhance~~ the heritage significance of the protected feature, as evaluated using the criteria in section 26.6.28.

Comment [MSOffice40]: #604

HISTORIC HERITAGE 26

26.4.1.7 Enable additions and alterations to protected features provided they are undertaken in a manner that:

Comment [MSOffice41]: #604, #688, #672, #696, #726.

- a) Enhances the heritage values of the protected feature or; where this is not possible;
- b) Maintains the heritage values of the protected feature, as assessed in accordance with the criteria listed in section 26.6.28; or where this is not possible;
- c) Ensures that the effects are minimised such that the heritage significance of the protected feature is not reduced.

Note: Applicants will be required to show that the above options have all been investigated.

Comment [MSOffice42]: Panel/ #604

26.4.1.8 Ensure that, where possible, any activity requiring consent within a heritage precinct avoids adverse effects on those key features and values of the precinct that are specifically identified in the 'statement of significance' and 'key features to be protected' parts of section 26.8 and that only where avoidance is not possible, remedies or mitigates such effects.

Comment [MSOffice43]: #426

26.4.2 **Objective - ~~To provide for~~ Historic heritage features ~~The~~ are used sustainably use of.**

Policies

26.4.2.1 Encourage the ongoing economic use of heritage buildings and sites by allowing adaptations and uses that:

- (a) Are in accordance with best practice; and
 - (i) Either enhance heritage values or do not permanently adversely affect heritage values to the extent that the heritage significance of the feature would be reduced, noting that the cumulative effects of incremental change must also be considered; and are in accordance with best practice.
- (b) Improve the viability of the protected feature and/ or improve public health and safety.
- (c) Recognise that heritage structures and buildings may need to be modified or re-engineered as engineering and safety standards evolve.

Comment [MSOffice44]: #519

Comment [MSOffice45]: #426

Comment [MSOffice46]: #621, #604

Comment [MSOffice47]: #621

26.4.2.2 Encourage the maintenance of historic heritage features and by allowing minor repairs and maintenance. ~~to be achieved without the need for consents.~~

26.4.3 **Objective - ~~To recognise~~ The diversity of historic heritage features, ~~landscapes, and values associated with them~~ is recognised**

Policies

26.4.3.1 Identify the heritage values of precincts, buildings, structures, sites, archaeological sites, landscapes and sites of significance to Maori.

26.4.3.2 Ensure that decision making on development proposals, on the effects on tangible and non-tangible values of sites of significance to Maori, are informed by those mandated to do so.

26.4.3.3 Recognise and protect the different layers of history within heritage landscapes and the relationship between these layers to retain their cultural meaning and values.

26.4.3.4 Avoid unnecessary duplication of consents with other statutory bodies on archaeological sites.

Comment [MSOffice48]: #426

HISTORIC HERITAGE 26

26.4.4 Objective - ~~To enhance~~ The historic heritage value of features is are enhanced where possible.

Policies

26.4.4.1 Encourage opportunities to enhance the understanding of historic heritage features, including through the need ~~for the provision of~~ to provide for interpretation ~~and~~

Comment [MSOffice49]: #604

26.4.4.2 Enable improved planning outcomes and encourage the enhancement of heritage values through ~~offering~~ the possible relaxation of rules elsewhere in the District Plan, in order to achieve accommodate better planning outcomes for heritage on a case by case basis.

Comment [MSOffice50]: #604

26.4.4.3 Recognise the value of long term commitments to the preservation of heritage values in the form of covenants and consent notices.

26.4.4.4 Enable and encourage ~~Accept that~~ ongoing improvements to protected features buildings, including earthquake strengthening and other safety measures, in recognition that this will provide for their ongoing use and longevity.

Comment [MSOffice51]: #621, #604

26.4.4.5 Enable the continuation of the mining activities that helped to create the various heritage landscapes, provided the complex of features identified in Section 26.12 that give the heritage landscape its character are protected and effects on the wider heritage values of the heritage landscape are ~~minimised or remedied~~ or mitigated.

Comment [MSOffice52]: #519

Comment [MSOffice53]: #519

Comment [MSOffice54]: #519

Note: These features are listed under both the 'Statements of Significance' and 'Key Features to be Protected' headings.

26.5 Other Relevant Provisions and Rules

Comment [MSOffice55]: Relocation to ensure consistent format with other PDP chapters, following Panel suggestion.

District Wide

Attention is drawn to the following District Wide chapters. All provisions referred to are within Stage 1 of the Proposed District Plan, unless marked as Operative District Plan (ODP).

<u>1 Introduction</u>	<u>2 Definitions</u>	<u>3 Strategic Direction</u>
<u>4 Urban Development</u>	<u>5 Tangata Whenua</u>	<u>6 Landscapes</u>
<u>24 Signs (18 ODP)</u>	<u>25 Earthworks (22 ODP)</u>	<u>29 Transport (14 ODP)</u>
<u>27 Subdivision</u>	<u>28 Natural Hazards</u>	<u>32 Protected Trees</u>
<u>30 Utilities and Renewable Energy</u>	<u>31 Hazardous Substances (16 ODP)</u>	<u>35 Temporary Activities and Relocated Buildings</u>
<u>33 Indigenous Vegetation</u>	<u>34 Wilding Exotic Trees</u>	<u>Planning Maps</u>
<u>36 Noise</u>	<u>37 Designations</u>	

Note: The heritage rules, including the precincts and landscapes, are an overlay and not a zone and, as such, the underlying zone provisions also apply in all cases.

Comment [MSOffice56]: #519

HISTORIC HERITAGE 26

26.6 Rules

The following tables describe activities, standards and subsequent level of activity for resource consent purposes.

~~Any activity that is not Permitted requires resource consent, and any activity that is not specifically identified in a level of activity, but breaches a standard, requires resource consent as a Discretionary activity.~~

Comment [MSOffice57]: #519

The following abbreviations are used in the tables:

P	Permitted	C	Controlled
RD	Restricted Discretionary	D	Discretionary
NC	Non Complying	PR	Prohibited

Terms used in this Chapter

Comment [MSOffice58]: #604

26.6.1 ~~For the purpose of this chapter, non-contributory buildings have no identifiable historic heritage significance or fabric. Their current impact will either be adverse or neutral. They are identified within a precinct because any future development of the site may impact on the contributory elements.~~

26.6.2 ~~For the purpose of this chapter, 'heritage fabric or characteristics' means any physical aspect of a heritage feature, which contributes to its heritage values as assessed in accordance with the criteria provided in section 26.6.28. **Where a heritage assessment exists for a feature on Council's records this will most likely provide a good indication of what constitutes the heritage fabric of that feature. Where such an assessment does not exist, heritage fabric may include but is not limited to:**~~

Comment [MSOffice59]: #604, #426.

~~a. Original and later material and detailing which forms part of, or is attached to, the interior or exterior of a protected feature;~~

~~b. The patina of age resulting from the weathering and wear of construction material over time;~~

~~c. Fixtures and fittings that form part of the design or significance of a heritage feature, but excludes inbuilt museum and artwork exhibitions and displays;~~

26.6.3 For the purpose of this chapter, **Heritage significance** means the significance of a feature (be it Category 1, 2, or 3) as evaluated in accordance with the criteria listed in section 26.2. A reduction in heritage significance refers to whether a proposed activity would have adverse effects which would degrade the Category that has been attributed to the feature.

Comment [MSOffice60]: #604

26.6.4 For the purpose of this chapter, **protected feature or feature** are the collective terms used to explain all buildings, features, and structures listed in the Inventory of Protected Features (26.9).

Comment [MSOffice61]: #604, #621.

26.6.5 For the purpose of this chapter, **relocation** means the relocation of protected features, including protected buildings, both within and beyond the site. The definition of 'relocation' in chapter 2 (which means the removal and resting of any building from any site to another site) shall not apply to this chapter.

Comment [MSOffice62]: Consequential additional to avoid direct conflict with definitions chapter

HISTORIC HERITAGE 26

26.6.6 For the purpose of this chapter, setting means the area around and/ or adjacent to a heritage feature listed in 26.9, which is integral to its function, meaning, and relationships and which is contained within the same legal title as the feature listed in the Inventory.

Comment [MSOffice63]: #688, #696, #726, #672, #621, #368, #524, #604

26.6.X For the purpose of this chapter archaeological site means, subject to section 42(3) of the HNZPTA 2014⁴:

- (a) any place in New Zealand, including any building or structure (or part of a building or structure), that—
 - (i) was associated with human activity that occurred before 1900 or is the site of the wreck of any vessel where the wreck occurred before 1900; and
 - (ii) provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand; and
- (b) includes a site for which a declaration is made under section 43(1) of the HNZPTA 2014.

Comment [MSOffice64]: #604

Table 1 General

Rule	Activity	All heritage features
26.6.7	<p>Repairs and maintenance</p> <p>Minor repairs and maintenance on all protected buildings and features, including and contributory and non-contributory buildings⁵ in heritage precincts. This includes minor repair of building materials and includes replacement of minor components such as individual bricks, cut stone, timber sections, roofing and glazing.</p> <p><u>The replacement items should shall be of the original or, if this is not achievable, closely matching material, colour, texture, form and design, except that the replacement of any products containing asbestos with a closely matching product is more desirable than using the same product.</u></p> <p>Works that do not meet these standards are classed as alterations.</p>	P

⁴ Heritage New Zealand Pouhere Taonga Act 2014

⁵ ~~Contributory buildings – are those that contribute to the significance of a heritage precinct but may not be worthy of individual protection. They may contain significant heritage fabric, architecture or positioning that adds value to the precinct.~~

~~Non-contributory buildings – have no identifiable historic heritage significance or fabric. Their current impact will either be adverse or neutral. They are identified within a precinct because any future development of the site may impact on the contributory elements.~~

26.6.28 **Evaluation criteria for inclusion of features in the Inventory of protected features and their Category and for ~~listing and categorising heritage features and~~ assessing resource consent applications**

Comment [MSOffice106]: #604

The following criteria are used to:

- ~~Determine the listing and category of listed features, whether a feature should be included in the Inventory and the category of such listed features; and to~~
- ~~These criteria shall be used to~~ Assess the effects of a proposal on heritage values and on the overall heritage significance of a feature, when preparing and assessing resource consent applications.

Heritage Assessments exist for many of the Protected Features and these provide a detailed assessment of the values of the feature and a conclusion of its overall significance. These assessments are available from the Council and should be used as the starting point for any evaluation. Where such an assessment does not exist, then your evaluation will need to be based on existing historical information, which can be obtained from various sources, including the Council's archaeological alert layer, Heritage New Zealand, the Council's resource consent files, and the Lakes District Museum.

1. Historic and Social Value

- a. Whether the feature reflects characteristics of national and/or local history.
- b. With regard to local history, whether the feature represents important social and development patterns of its time, such as settlement history, farming, transport, trade, civic, cultural and social aspects.
- c. Whether the feature is significant in terms of a notable figure, event, phase or activity.
- d. The degree of community association or public esteem for the feature.
- e. Whether the feature has the potential to provide knowledge and assist in public education with regard to Otago and New Zealand History.

2. Cultural and Spiritual Value

¹² Heritage New Zealand Pouhere Taonga Act 2014

HISTORIC HERITAGE 26

- a. Whether it is of special significance to Tangata Whenua.
- b. Contribution to the characteristics of a way of life, philosophy, religion or other belief which is held by a particular group or community.

3. Architectural Value

- a. Whether the building or structure has architectural or artistic value.
- b. Whether the feature represents a particular era or style of architecture or significant designer.
- c. Whether the style of the building or structure contributes to the general character of the area.
- d. The degree to which the feature is intact.
- e. Whether the building or structure has undergone any alteration, thereby changing the original design.

4. Townscape and Context Value

- a. Whether the feature plays a role in defining a space or street.
- b. Whether the feature provides visual interest and amenity.
- c. Degree of unity in terms of scale, form materials, textures and colour in relation to its setting and/or surrounding buildings.

5. Rarity and Representative Value

- a. Whether the feature is a unique or exceptional representative of its type either locally or nationally.
- b. Whether the feature represents a way of life, a technology, a style or a period of time.
- c. Whether the feature is regarded as a landmark or represents symbolic values.
- d. Whether the feature is valued as a rarity due to its type, style, distribution and quantity left in existence.

6. Technological Value

- a. Whether the building has technical value in respect of the structure, nature and use of materials and/or finish.
- b. Whether the building or structure is representative of a particular technique.

7. Archaeological Value

- a. Significance in terms of important physical evidence of human activities which through archaeological investigation could provide knowledge of the history of Otago and New Zealand.

26.7 Non-notification

The provisions of the RMA apply in determining whether an application needs to be processed on a notified basis. No activities or non-compliances with the standards in this chapter have been identified for processing on a non-notified basis.

HISTORIC HERITAGE 26

Inventory of Protected Features

26.8 Heritage Precincts

26.8.1 Queenstown Courthouse Heritage Precinct

Comment [MSOffice107]: #596, #604

HISTORIC HERITAGE 26

26.8.2 Statement of Significance

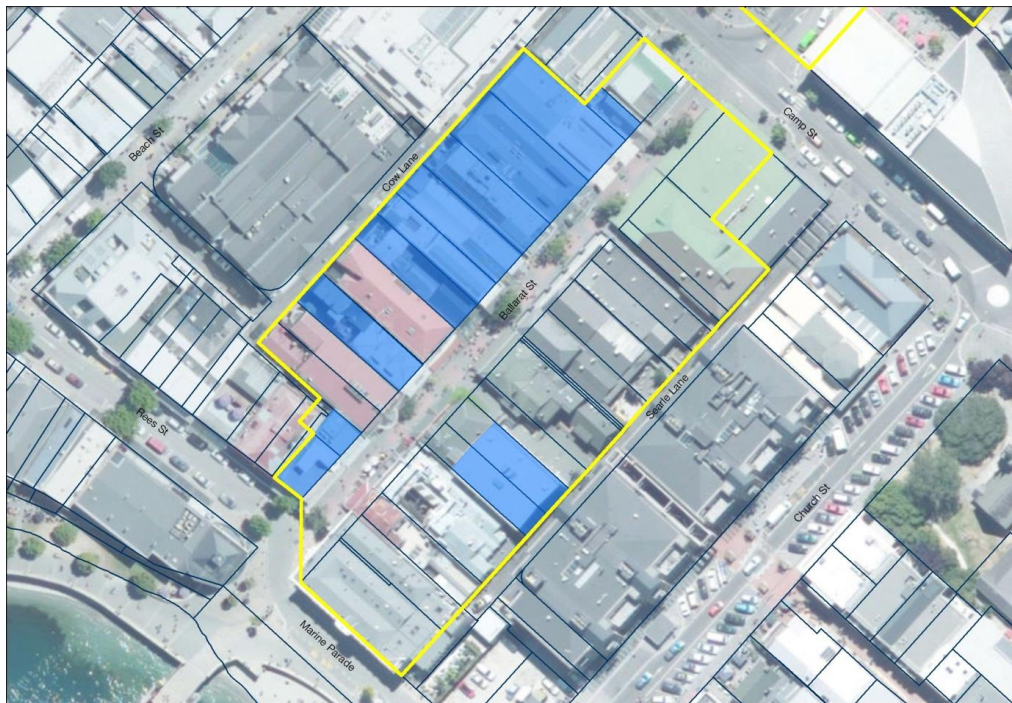

The Precinct represents the historically significant civic centre of Queenstown and contains a number of important heritage buildings, open spaces and structures. Their design and the nature of their stone construction convey their high status within the District. The buildings / structures are an architectural statement of permanency, stability and prosperity as the town evolved progressively from its early canvas tent and timber structures to a new generation of enduring public buildings. The buildings / structures generally remain intact and have a high degree of historical and architectural authenticity within the town. They are very distinctive and prominent features of the townscape in this part of Queenstown and define its provenance. Their scale, form and materials are characteristic of 19th century Queenstown and, together, they are considered to have high 'group' / contextual value in relation to each other. The Stone Bridge is also a rare example of its kind in the District.

26.8.3 Key features to be protected

- 26.8.3.1 The individual principal historic buildings; their form, scale, materials and significance. Incremental loss must be avoided.
- 26.8.3.2 The 'group' value of the buildings within the Precinct and their setting within it, including the open spaces.
- 26.8.3.3 The townscape / landmark value of the Precinct, i.e., other buildings, development and signage within the precinct or adjoining it should not adversely affect or diminish the significance of the Heritage Precinct.

HISTORIC HERITAGE 26

26.8.4 Queenstown Mall Heritage Precinct

Blue shapes are the non-contributory buildings.

26.8.5 Statement of Significance

The Precinct represents the historically significant commercial centre of Queenstown and still embodies its early settlement pattern from when the town was set out in 1864. This is evident in the arrangement of the sections and the street layout within the precinct. The Precinct contains a wide variance of architectural styles and features of interest is centred on the Mall (Ballarat Street), which since the earliest days of Queenstown has been the principal thoroughfare from the lake through the town. The route of Ballarat Street running up to Hallenstein Street and the frontage of Eichardt's Hotel near the lake provide an historically iconic view of the town from the lake of outstanding townscape and contextual value. The Precinct is considered to have high archaeological value for the evidence that it could provide of the early settlement of Queenstown and its pre-1900 development.

26.8.6 Key features to be protected

- 26.8.6.1 The group of reasonably intact 19th century commercial buildings / structures towards the lake end of the Mall and their setting within the Precinct.
- 26.8.6.2 The early settlement pattern of the town (the arrangement of the sections and the street layout within the Precinct). Incremental loss must be avoided.
- 26.8.6.3 The view of the Precinct from the lake, including the straight view up Ballarat Street to Hallenstein and vice-versa.
- 26.8.6.4 The archaeology of the Precinct.

HISTORIC HERITAGE 26

26.8.7 Queenstown Marine Parade Heritage Precinct

Blue shapes are the non-contributory buildings.

26.8.8 Summary of significance

The combination of the heritage buildings, the environs of Marine Parade and the shoreline of Lake Wakatipu and the landscape beyond, result in the Heritage Precinct being of unique and exceptional townscape significance. The heritage buildings within the Precinct are representative of the evolution of the early settlement into a permanent and prosperous town. The Masonic Lodge and William's Cottage are thought to be amongst the oldest buildings in the town and create a Precinct of architectural 'gems', which signifies the social and tourist heritage of the town.

26.8.9 Key features to be protected

- 26.8.9.1 The individual principal historic buildings; their form scale, materials and significance. Incremental loss must be avoided.
- 26.8.9.2 The unique and exceptional townscape significance of the Precinct.

HISTORIC HERITAGE 26

26.8.10 Arrowtown Town Centre Heritage Precinct

26.8.11 Statement of Significance

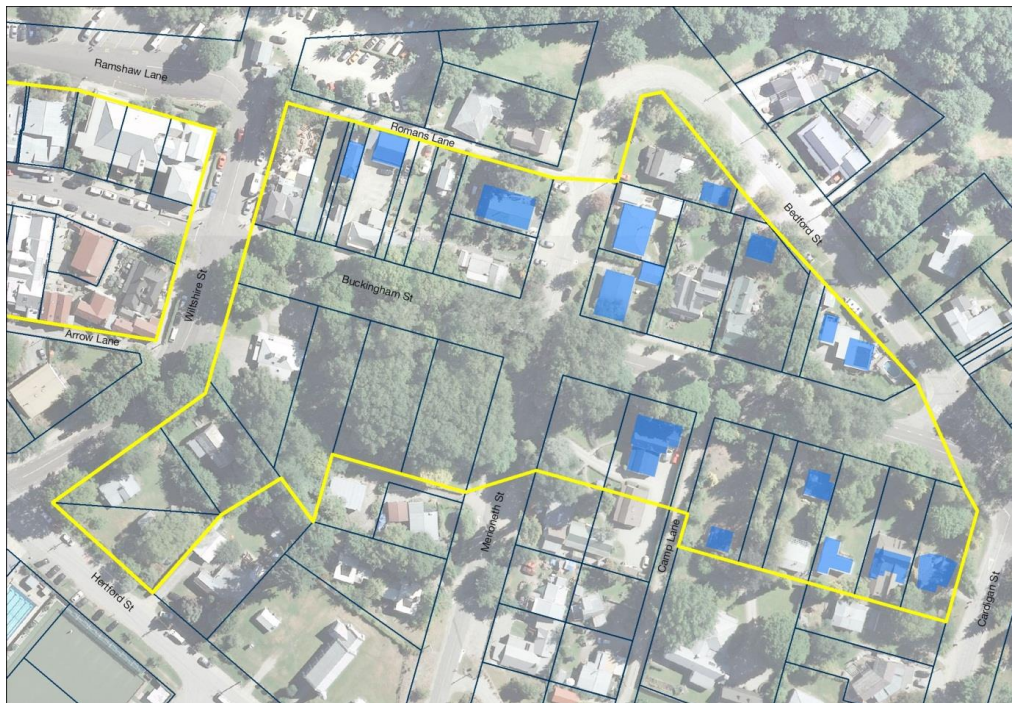

The precinct represents the commercial centre of the town and includes a nucleus of heritage buildings that have developed on the site of the 1864 relocated town centre. Buildings such as the former BNZ bank premises (associated with the renowned architect, R.A. Lawson) and Pritchard's Store date from the mid -1870s are symbolic of the development of the town during that economically stable period. The Postmaster's House and Post & Telegraph office have origins in the 20th century and are symbolic of the later progression of the town. The Precinct is held in high esteem by the local community and visitors alike and is a very popular tourist attraction. It contains heritage buildings / structures that are of high aesthetic and architectural significance within the District and wider region as authentic examples or representation of a goldfields' town dating from the 1860s and 1870s. It is considered to have high archaeological value for the evidence that it could provide of pre-1900 commercial Arrowtown dating to the early to mid – 1860s.

26.8.12 Key features to be protected

- 26.8.12.1 The unity of the Precinct in terms of scale, form, materials, textures and colours in relation to its mountain and river setting.
- 26.8.12.2 The 'group' value of the Precinct and its representative image of a traditional goldfields town.
- 26.8.12.3 The streetscape, and street and section patterns.
- 26.8.12.4 Views through the Precinct.
- 26.8.12.5 Archaeology.

HISTORIC HERITAGE 26

26.8.13 Arrowtown Cottages Heritage Precinct

Blue shapes are the non-contributory buildings.

26.8.14 Statement of Significance

The Precinct represents the historically significant and authentic early years of the settlement and development of Arrowtown from, principally, a social perspective. It contains some of the town's most important buildings and features, including 1870s miners' cottages, the Masonic Lodge, the Green and the tree-lined avenue. The architectural and aesthetic quality of the precinct is derived from its plain, functional, small scale buildings, principally of timber and iron, which represent the typical form of accommodation in which miners and their families lived during the Central Otago Gold Rush years. The larger stone buildings demonstrate progress and permanence as the prosperity and confidence of the town grew. The tree-lined avenue and Green have great aesthetic appeal and provide the setting for the buildings within the precinct. The Precinct has very high townscape / contextual and rarity significance within the District.

26.8.15 Key Features to be protected

- 26.8.15.1 The individual principal historic buildings; their form, scale, materials and significance. Incremental loss must be avoided.
- 26.8.15.2 The 'group' value of the buildings within the precinct and their setting within it, including the open spaces.
- 26.8.15.3 The townscape / landmark value of the Precinct i.e., other buildings, development and signage within the Precinct or adjoining it should not adversely affect or diminish the significance of the heritage Precinct.
- 26.8.15.4 Archaeology.

HISTORIC HERITAGE 26

26.11 Sites of Significance to Maori

(To be confirmed)

HISTORIC HERITAGE 26

26.12 Heritage Landscapes

26.12.1 Skippers Heritage Landscape (Refer planning maps 10 and 29)

Comment [MSOffice166]: #201 (for all such changes)

26.12.2 Statement of Significance

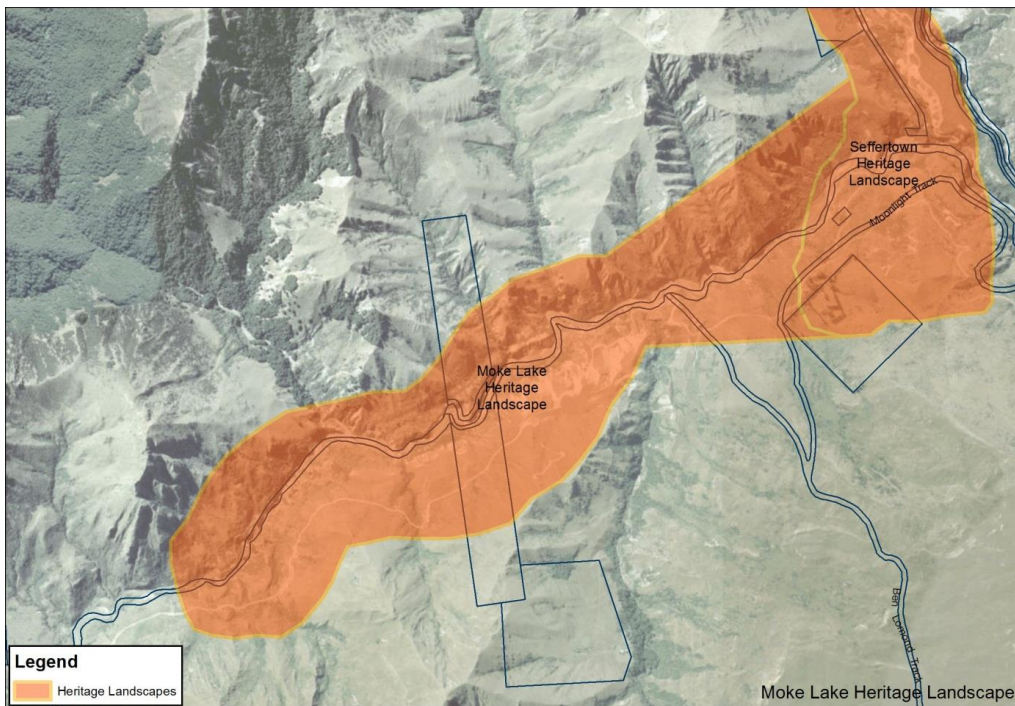

The Skippers Heritage Landscape (SHL) represents some of the most historically and archaeologically significant 19th century gold mining sites in Otago and Southern New Zealand. Together, the diverse gold mining sites and features form a historically rich landscape that embodies the 1860s gold mining efforts and challenges of early miners, as well as later, more sophisticated mining technology that was needed to access the more difficult deposits of gold. In combination with the remote and stunning natural landscape of the Shotover River valley, the SHL offers a unique, largely intact, and publicly accessible historic gold mining experience for visitors to the Shotover River. Within the SHL, the precipitous later 19th century Skippers Road (1883 to 1890), the deserted Skipper's Township (1862) and the 1901 Skippers Suspension Bridge are all highly significant heritage sites that have been recognised by their Heritage New Zealand listings. In addition, over 130 archaeological sites within the SHL are entered on the New Zealand Archaeological Association Site Recording Scheme, demonstrating the outstanding heritage significance of the Skippers Heritage landscape.

26.12.3 Key Features to be protected

- 26.12.3.1 The Skippers Road and its historic revetments and construction features.
- 26.12.3.2 The Skippers suspension bridge and former town ship area.
- 26.12.3.3 All other known archaeological sites, including sluiced terraces.
- 26.12.3.4 Unobstructed views along the Skippers canyon section of the Shotover River.

HISTORIC HERITAGE 26

26.12.4 Moke Lake and Sefferton Heritage Landscape (Refer planning maps 9, 10, 12, and 13)

HISTORIC HERITAGE 26

26.12.5 Statement of Significance

The Sefferton and Moke Lake Heritage Landscapes (SMLHL) are significant for their concentrations of historic gold and copper mining remains, which include both mining infrastructure and settlement sites. The extensive and well preserved complex of features along Moonlight Creek and Moke Creek are an important part of the wider history of the Wakatipu gold rush, linking closely with the Shotover River, Arrow River and Macetown / Rich Burn goldfields. Sefferton / Moke Creek was the site, albeit short lived, of an early tented gold rush township that settled into a remote, mountain community that survived into the 1950's. Its remains provide tangible reminders of the many local stories that survive of the mining community and their hardships and life in the mountain goldfields of Otago.

26.12.6 Key Features to be protected

- 26.12.6.1 The former mining settlement remains at Moke Creek / Sefferton including the surviving cottages, huts, gardens and plantings.
- 26.12.6.2 The copper mining site along Moke Lake Road.
- 26.12.6.3 Moke Lake Road and the historic track to Butchers Hut along the true right bank of the Moonlight Creek.
- 26.12.6.4 The extensive stone and earthwork mining remains centred on Sheeppark Terrace and the Moonlight Creek.
- 26.12.6.5 The 8.8km water race leading from above Montgomery's Creek to the Sheeppark Terrace area and below.
- 26.12.6.6 All other known archaeological sites and listed historic places within the SMLHL.

26.12.7 Glenorchy Heritage Landscape (Refer planning map 9)

HISTORIC HERITAGE 26

26.12.8 Summary of significance

The Glenorchy Heritage Landscape (GHL) is significant for its specific scheelite mining activities that extended from the 1880's until the 1980's, which have left a significant group of mine sites and infrastructure, along with a unique social history of the people who worked there. Collectively, these activities left behind a sequence of evidence that follows the mining cycle that began here in the 1880's and which may well recommence at some point in the future. They in turn, The sites within this heritage landscape represent the hard won and sometimes fruitless endeavours of a close knit community of miners that spanned a hundred years of mining at Glenorchy. The GHL encompasses the majority of the key mine sites, tracks, a cableway and sections of water races that represented the primary scheelite producing area in New Zealand. The combination of private and state-owned mines is also a unique part of the GHL's history in the ubiquitous and contemporary gold mining industry of the Wakatipu Basin. Overall, the scheelite mining history symbolised by the GHL is a unique one of national heritage significance. It is recognised that there is the potential for exploration and mining to recommence in the GHL at some point.

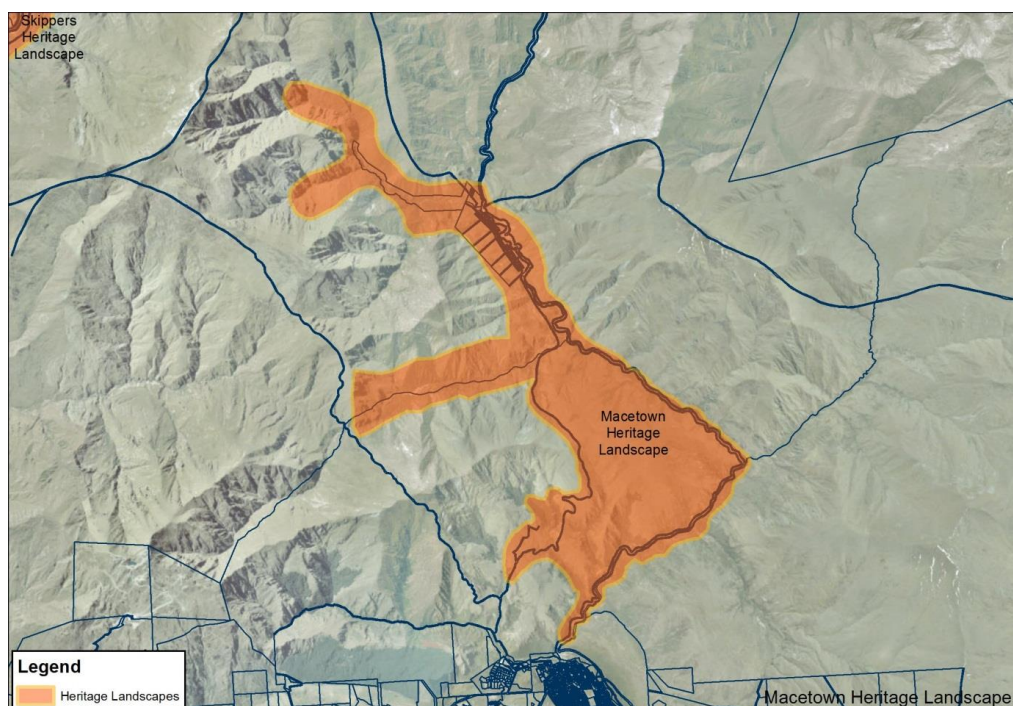

Comment [MSOffice167]: #519

26.12.9 Key features to be protected

- 26.12.9.1 All mines, mining huts, the cableway and track ways within the GHL boundary (including the Black Peak Mine).
- 26.12.9.2 The mine sites along the Mount Judah Road.
- 26.12.9.3 All other known archaeological sites and historic places within the GHL

Comment [MSOffice168]: #519

26.12.10 Macetown Heritage Landscape (Refer planning maps 10 & 26)

26.12.11 Summary of significance

Although it covers a large area, the Macetown Heritage Landscape (MHL) is significant for its concentration of historic gold mining sites, focussed on the deserted mining town of Macetown, which span from the earliest exploitation of gold in the Arrowtown area in 1862, through to the end of gold mining in the 1930's. Such a continuum of mining activity – first alluvial then hard-rock or quartz – has left a distinct and intelligible landscape with diverse features and stories linked by a series of mining

HISTORIC HERITAGE 26

tracks that still allow access to this remote and stunning countryside. The MHL encompasses three key areas; the Rich Burn Valley, Macetown and the Arrow River valley, all three of which have distinctive characters and features that coalesce to form a broader mining heritage landscape of regional significance. Among these, Macetown is highly significant, representing the surviving remains of a remote 19th century mining village to which stories are still attached and some history has been traced to its founders, occupants and demise. Situated within its larger mining heritage landscape context, Macetown can be interpreted as part of a community of gold mining activity sites, which are a key part of the wider Otago gold mining story.

26.12.12 Key features to be protected

- 26.12.12.1 The (Department of Conservation) Macetown Historic Reserve area including the Macetown Road.
- 26.12.12.2 The Rich Burn mining remains (e.g., Anderson's Battery and the Homeward Bound Battery; the Sunrise Mine Office).
- 26.12.12.3 The historic mining tracks of Hayes Creek, Sawpit Gully and Advance Peak and similar tracks within the MHL.
- 26.12.12.4 All other known archaeological sites and listed historic places within the MHL.

26.13 Heritage Orders

Ref No	Map Ref	Related Protected Features	Purpose	Heritage Protection Authority	Site and Legal Description
1	28	See 362 and 373	To protect and preserve the buildings known as the Postmaster's House and the Arrowtown Post Office and their associated buildings and their surrounding land (refer to site files for complete description of heritage order).	Queenstown Lakes District Council	52 and 54 Buckingham Street Lots 1 and 2, DP 21884, Block VI, Town of Arrowtown (Valuation reference 2918228800 and 2918228801)
2	36		To protect the building known as Archer cottage and the historic relationship created by buildings on Marine Parade, the space between these buildings and the relationship between these buildings and the public space onto which they front (refer to site files for complete description of heritage order).	Queenstown Lakes District Council	Lot 15 DP 302022
