

22 Rural Residential and Rural Lifestyle

Please Note: Variations to parts of this chapter have been decided by Council on 7 March 2019 as part of Stage 2 of the PDP. You can view the Stage 2 Decisions, appeals and section 274 notices on our website. The appeal and section 274 periods for the Stage 1 and 2 Decisions have closed.

22.1 Zone Purpose

There are four rural zones in the District. The Rural Zone is the most extensive of these. The Gibbston Valley is recognised as a special character area for viticulture production and the management of this area is provided for in Chapter 23: Gibbston Character Zone. Opportunities for rural living activities are provided for in the Rural-Residential and Rural Lifestyle Zones.

The Rural Residential and Rural Lifestyle zones provide residential living opportunities on the periphery of urban areas and within specific locations amidst the Rural Zone. In both zones a minimum allotment size is necessary to maintain the character and quality of the zones and the open space, rural and natural landscape values of the surrounding Rural Zone.

While development is anticipated in the Rural Residential and Rural Lifestyle zones, the district is subject to natural hazards and, where applicable, it is anticipated that development will recognise and manage the risks of natural hazards at the time of subdivision or the identification of building platforms.

Rural Residential Zone

The Rural Residential zone generally provides for development at a density of up to one residence every 4000m². Some Rural Residential areas are located within visually sensitive landscapes. Additional provisions apply to development in some areas to enhance landscape values, indigenous vegetation, the quality of living environments within the zone and to manage the visual effects of the anticipated development from outside the zone, particularly from surrounding rural areas, lakes and rivers. The potential adverse effects of buildings are controlled by bulk and location, colour and lighting standards and, where required, design and landscaping controls imposed at the time of subdivision.

Rural Lifestyle Zone

The Rural Lifestyle zone provides for rural living opportunities with an overall density of one residential unit per two hectares across a subdivision. Building platforms are identified at the time of subdivision to manage the sprawl of buildings, manage adverse effects on landscape values and to manage other identified constraints such as natural hazards and servicing. The potential adverse effects of buildings are controlled by height, colour and lighting standards.

Many of the Rural Lifestyle zones are located within sensitive parts of the district's distinctive landscapes. While residential development is anticipated within these zones, provisions are included to manage the visual prominence of buildings, control residential density and generally discourage commercial activities. Building location is controlled by the identification of building platforms, bulk and location standards and, where required, design and landscaping controls imposed at the time of subdivision.

22.2 Objectives and Policies

22.2.1 Objective - The District’s landscape quality, character and amenity values are maintained and enhanced while enabling rural living opportunities in areas that can absorb development.

Policies

22.2.1.1 Ensure the visual prominence of buildings is avoided, remedied or mitigated particularly development and associated earthworks on prominent slopes, ridges and skylines.

22.2.1.2 Set density and building coverage standards in order to maintain rural living character and amenity values and the open space and rural qualities of the District’s landscapes.

22.2.1.3 Allow for flexibility of the density provisions, where design-led and innovative patterns of subdivision and residential development, roading and planting would enhance the character and amenity values of the zone and the District’s landscapes.

22.2.1.4 Manage anticipated activities that are located near Outstanding Natural Features and Outstanding Natural Landscapes so that they do not diminish the qualities of these landscapes and their importance as part of the District’s landscapes.

22.2.1.5 Maintain and enhance landscape values and amenity values within the zones by controlling the colour, scale, location and height of permitted buildings and in certain locations or circumstances require landscaping and vegetation controls.

22.2.1.6 Lights be located and directed so as to avoid glare to other properties, roads, and other public places and to avoid degradation of views of the night sky.

22.2.1.7 Have regard to fire risk from vegetation and the potential risk to people and buildings, when assessing subdivision, development and any landscaping.

22.2.1.8 Provide adequate firefighting water and fire service vehicle access to ensure an efficient and effective emergency response.

22.2.2 Objective - The predominant land uses within the Rural Residential and Rural Lifestyle Zones are rural and residential activities.

Policies

22.2.2.1 Enable residential and farming activities in both zones, and provide for community and visitor accommodation activities which, in terms of location, scale and type, community are compatible with and enhance the predominant activities of the relevant zone.

22.2.2.2 Any development, including subdivision located on the periphery of residential and township areas, shall avoid undermining the integrity of the urban rural edge and where applicable, the urban growth boundaries.

22.2.2.3 Discourage commercial, community and other non-residential activities, including restaurants, visitor accommodation and industrial activities that would diminish amenity values and the quality and character of the rural living environment.

22.2.2.4 The bulk, scale and intensity of buildings used for visitor accommodation, residential visitor accommodation and homestay activities are to be commensurate with the anticipated development of the zone and surrounding residential activities.

PART 4 RURAL RESIDENTIAL & RURAL LIFESTYLE 22

22.2.2.5 Enable residential visitor accommodation and homestays in conjunction with residential units (including residential flats) whilst limiting the scale, intensity and frequency of these activities.

22.2.3 Objective - New development does not exceed available capacities for servicing and infrastructure.

Policies

22.2.3.1 Discourage new development that requires servicing and infrastructure at a cost to the community.

22.2.3.2 Ensure traffic generated by new development does not compromise road safety or efficiency.

22.2.4 Objective - Sensitive activities conflicting with existing and anticipated rural activities are managed.

Policies

22.2.4.1 Recognise existing and permitted activities, including activities within the surrounding Rural Zone might result in effects such as odour, noise, dust and traffic generation that are established, or reasonably expected to occur and will be noticeable to residents and visitors in rural areas.

22.2.5 Objective - Bob's Cove Rural Residential Sub-Zone - Residential Development is comprehensively-planned with ample open space and a predominance of indigenous vegetation throughout the zone.

22.2.5.1 Ensure at least 75% of the zone is retained as undomesticated area and at least 50% of this area is established and maintained in indigenous species such that total indigenous vegetation cover is maintained over that area.

22.2.5.2 Ensure there is open space in front of buildings that remains generally free of vegetation to avoid disrupting the open pastoral character of the area and the lake and mountain views.

22.2.6 Objective - Bob's Cove Rural Residential Zone - The ecological and amenity values of the Bob's Cove Rural Residential zone are maintained and enhanced.

22.2.6.1 To ensure views of Lake Wakatipu and the surrounding landforms from the Glenorchy-Queenstown Road are retained through appropriate landscaping and the retention of view shafts.

22.2.6.2 To ensure the ecological and amenity values of Bob's Cove are retained and, where possible, enhanced through:

- a. appropriate landscaping using native plants;
- b. restricting the use of exotic plants;
- c. removing wilding species;
- d. providing guidance on the design and colour of buildings;

PART 4 RURAL RESIDENTIAL & RURAL LIFESTYLE 22

e. maintaining view shafts from the Queenstown-Glenorchy Road.

22.3 Other Provisions and Rules

22.3.1 District Wide

Attention is drawn to the following District Wide chapters.

1 Introduction	2 Definitions	3 Strategic Direction
4 Urban Development	5 Tangata Whenua	6 Landscapes and Rural Character
25 Earthworks	26 Historic Heritage	27 Subdivision
28 Natural Hazards	29 Transport	30 Energy and Utilities
31 Signs	32 Protected Trees	33 Indigenous Vegetation
34 Wilding Exotic Trees	35 Temporary Activities and Relocated Buildings	36 Noise
37 Designations	Planning Maps	

22.3.2 Interpreting and Applying the Rules

- 22.3.2.1 A permitted activity must comply with all the rules listed in the Activity and Standards tables, and any relevant district wide rules.
- 22.3.2.2 Where an activity does not comply with a Standard listed in the Standards table, the activity status identified by the 'Non-Compliance Status' column shall apply. Where an activity breaches more than one Standard, the most restrictive status shall apply to the Activity.
- 22.3.2.3 Compliance with any of the following standards, in particular the permitted standards, does not absolve any commitment to the conditions of any relevant land use consent, consent notice or covenant registered on the site's computer freehold register.
- 22.3.2.4 Development and building activities are to be undertaken in accordance with the conditions of resource and subdivision consent and may be subject to monitoring by the Council.
- 22.3.2.5 Applications for building consent for permitted activities shall include information to demonstrate compliance with the following standards, and any conditions of the applicable resource consent or subdivision.
- 22.3.2.6 For controlled and restricted discretionary activities, the Council shall restrict the exercise of its control and discretion to the matters listed in the rule.
- 22.3.2.7 Building platforms identified on a site's computer freehold register must have been registered as part of a resource consent approval by the Council.

PART 4 RURAL RESIDENTIAL & RURAL LIFESTYLE 22

22.3.2.8 Sub-Zones, being a subset of the respective Rural Residential and Rural Lifestyle zones require that all rules applicable to the respective zone apply, unless specifically stated to the contrary.

22.3.2.9 In addition to Tables 1 and 2, the following standards apply to the areas specified:

Table 3: Rural Residential Zone at Forest Hill.

Table 4: Rural Residential Bob's Cove and Sub Zone.

Table 5: Rural Residential Zone at Camp Hill.

Table 6: Wyuna Station Rural Lifestyle Zone.

22.3.2.10 The status of any Plantation Forestry will be determined by the Resource Management (National Environmental Standards for Plantation Forestry) Regulations 2017.

22.3.2.11 These abbreviations are used in the following tables.

P	Permitted	C	Controlled
RD	Restricted Discretionary	D	Discretionary
NC	Non Complying	PR	Prohibited

22.3.3 Exemptions

22.3.3.1 The standards pertaining to the colours and materials of buildings in Table 2 do not apply to soffits or, doors that are less than 1.8m wide.

22.3.3.2 Internal alterations to buildings including the replacement of joinery is permitted.

22.4 Rules - Activities

Table 1	Activities - Rural Residential and Rural Lifestyle Zones	Activity Status
22.4.1	Rural Residential Zone The construction and exterior alteration of buildings.	P
22.4.2	Rural Lifestyle Zone 22.4.2.1 The construction and exterior alteration of buildings located within a building platform approved by resource consent, or registered on the applicable computer freehold register. 22.4.2.2 Where there is not an approved building platform on the site the exterior alteration of existing buildings located outside of a building platform not exceeding 30% of the ground floor area of the existing building in any ten year period.	P P

PART 4 RURAL RESIDENTIAL & RURAL LIFESTYLE 22

Table 1	Activities - Rural Residential and Rural Lifestyle Zones	Activity Status
	<p>22.4.2.3 Where there is not an approved building platform on the site the exterior alteration of existing buildings located outside of a building platform that do not comply with Rule 22.4.2.2.</p> <p>Discretion is restricted to:</p> <ul style="list-style-type: none"> a. external appearance; b. visibility from public places; c. landscape character; d. visual amenity. <p>22.4.2.4 The identification of a building platform not less than 70m² and not greater than 1000m² for the purposes of a residential unit except where identified by Rule 27.7.10.</p>	<p>RD</p> <p>D</p>

	predominantly indigenous species (comprising a mix of trees, shrubs, and grasses) that are suited to the general area, such as red beech, native tussocks, hebes, pittosporum, coprosmas, cabbage trees, and lancewoods.	

Table 5	Rural Residential Camp Hill	Non-compliance Status
22.5.30	Zone Boundary Setback The minimum setback of any building from the zone boundary, or the top of the escarpment where this is located within the zone boundary, shall be 20m.	NC
22.5.31	Building Height The maximum height of any building shall be 5.5m.	NC
22.5.32	Maximum Number of Residential Units There shall be no more than 36 residential units within the Rural Residential Zone Camp Hill.	NC

Table 6	Wynuna Station Rural Lifestyle Zone	Non-compliance Status
22.5.38	The identification of any building platforms or construction of dwellings prior to the granting of subdivision consent that has assessed policies 27.3.5.1, 27.3.6.1 and 27.3.6.2.	PR

22.6 Rules – Non-notification of Application

Any application for resource consent for the following matters shall not require the written approval of other persons and shall not be notified or limited-notified:

- 22.6.1** Controlled activity Home occupation (Rule 22.4.9). Except where the access is onto a State Highway.
