43.1 Resort Zone Purpose

43.1.1 The purpose of the Millbrook Resort Zone is to provide for a visitor resort of high quality. The Zone provides for recreational activities (including golf), commercial, residential and visitor accommodation together with support facilities and services. The general amenity of the Zone is one of development enclaves located in the open rural countryside with well landscaped grounds. Well located and designed development is expected throughout the Zone. To achieve this, integrated planning in accordance with a Structure Plan is required.

43.1.2 The Millbrook Structure Plan includes several 'Activity Areas' which correspond with rules. The purpose of the various Activity Areas is summarised as follows:

- Village Activity Area (V) – to provide for residential and visitor accommodation activities and commercial activities associated with a resort.
- Golf / Open Space Activity Area (G) – to provide for outdoor recreation activities and open space.
- Residential Activity Area (R) – to provide for residential activities (different areas are individually numbered so as to correspond with rules).
- Recreational Facilities Activity Area (F) – to provide for recreational activities.
- Landscape Protection Activity Area (LP) – to manage sensitive landscape areas in a manner which prevents inappropriate development.
- Landscape Protection (Malaghans) Activity Area (LPM) - to maintain a mature tree lined edge to Malaghans Road.
- Resort Services Activity Area (S): to provide for service and maintenance activities which support the functioning of a resort.

- Helicopter Landing and Take Off Activity Area (H) – to enable the consideration of applications for helicopter landings and take offs from this location.

43.1.3 The Structure Plan also includes the following overlays which apply in addition to the Activity Areas that cover the same areas. The purpose of these overlays is summarised as follows:

- Amenity Landscaping Overlay (L) – to identify those locations where measures will be undertaken to avoid adverse effects on landscape amenity.
- Height Restriction Overlay (HR) – used to specify height restrictions on Indicative Residential Sites 10 and 11.
- Earthworks Overlays (E1 and E2) - to identify where earthworks will be undertaken to mitigate effects on neighbouring properties, and prevent buildings in those areas.
- Gully Planting (GP) and Open Planting (OP) Overlays - to specify where landscape planting is required for ecological restoration purposes.
- Indicative Residential Sites - to identify locations of future buildings and specify height limits and recession plane controls.

43.2 Objectives and Policies

43.2.1 Objective – Visitor, residential and recreation activities developed in an integrated manner with particular regard for landscape, heritage, ecological, and water quality values.

Policies

- 43.2.1.1 Require development and activities to be located in accordance with a Structure Plan so as to promote orderly and integrated development and prevent the inappropriate development of sensitive parts of the site.
- 43.2.1.2 Require buildings and associated landscaping to have regard to landscape and heritage values.
- 43.2.1.3 Protect valuable ecological remnants and promote the enhancement of ecological values where reasonably practical.
- 43.2.1.4 Require the take-off and landing of aircraft to be controlled.
- 43.2.1.5 Require an integrated landscape management plan for the South Dalglish part of the zone
- 43.2.1.6 Reduce nutrient levels and other pollutants entering Mill Creek.
