The Large Lot Residential Zone provides low density living opportunities within defined urban growth Boundaries. The zone also serves as a buffer between higher density residential areas and rural areas that are located outside of urban growth Boundaries.

The zone generally provides for a density of one residence every 2000m<sup>2</sup> to provide for a more efficient development pattern to utilise the Council's water and wastewater services while maintaining opportunities for a variety of housing options, landscaping and open space. Identified areas have a residential density of one residence every 4000m<sup>2</sup> reflecting landscape or topographical constraints such as around Mt Iron in Wanaka.

# LARGE LOT RESIDENTIAL 11

The potential adverse effects of buildings are controlled by bulk and location, colour and lighting standards and in respect of the lower density (4,000m<sup>2</sup>) part of the zone, design and landscaping controls imposed at the time of subdivision.

Community activities and low intensity forms of visitor accommodation may be appropriate provided the low density development character, and amenity for residents is maintained and there is a demonstrated need to locate in the zone.

While development is anticipated in the zone, some areas are subject to natural hazards and, where applicable, it is anticipated that development will recognise and manage the risks of natural hazards at the time of subdivision.

Visitor accommodation is anticipated in the Visitor Accommodation Sub-Zones and shown on the District Plan web mapping application, which have historically provided (and will continue to provide) important locations for visitor accommodation to meet the District's needs. The sub-zones are located in residential areas, and applications for visitor accommodation activities and associated development must address matters that impact on residential amenity, including character, traffic and noise effects.

Visitor accommodation outside of the Visitor Accommodation Sub-Zones is restricted.

The commercial letting of residential properties as short-term accommodation for paying guests on a year-round or permanent basis, is restricted, where it would result in a loss of residential character, cohesion and amenity values. Low intensity use of residential units, including residential flats, to accommodate paying guests is enabled, where the predominant residential character of the environment is retained and the residential amenity values of nearby residents are maintained.

Visitor accommodation is defined in the District Plan separately from accommodation activities involving paying guests occurring in residential units and residential flats, which are defined as Residential Visitor Accommodation and Homestay activities.

## **11.2 Objectives and Policies**

### **11.2.1 Objective - A high quality of residential amenity values are maintained within the Large Lot Residential Zone.**

#### **Policies**

- 11.2.1.1 Maintain low density residential character and amenity through minimum allotment sizes that efficiently utilise the land resource and infrastructure (Area A), and require larger allotment sizes in those parts of the zone that are subject to significant landscape and/or topographical constraints (Area B).
- 11.2.1.2 Maintain or enhance residential character and high amenity values by controlling the scale, location and height of buildings and in addition within Area B by requiring landscaping, colour and vegetation controls.
- 11.2.1.3 Control lighting to avoid glare to other properties, roads, public places and views of the night sky.
- 11.2.1.4 Have regard to hazards and human safety, including fire risk from vegetation and the potential risk to people and buildings, when assessing subdivision, development and any landscaping in Area B.

# LARGE LOT RESIDENTIAL 11

**11.2.2 Objective - Predominant land uses are residential. Where appropriate, community and recreational activities also occur.**

## **Policies**

11.2.2.1 Provide for residential and home occupation as permitted activities, and recognise that depending on the location, scale and type, community activities may be compatible with and enhance the zone's amenity values.

11.2.2.2 Commercial or other non-residential activity located on the periphery of residential and township areas shall avoid undermining the integrity of the town centres, urban rural edge and where applicable, the Urban growth Boundaries.

11.2.2.3 Ensure that any commercial and non-residential activities, including restaurants, maintain or enhance the amenity, quality and character of the zone.

**11.2.3 Objective – Visitor accommodation, residential visitor accommodation and homestays are enabled at locations, and at a scale, intensity and frequency, that maintain the residential character and amenity values of the zone.**

## **Policies**

11.2.3.1 Provide for visitor accommodation and residential visitor accommodation that are appropriate for the low density residential environment in the Visitor Accommodation Sub-Zones, while ensuring that adverse effects on residential amenity values are avoided, remedied or mitigated.

11.2.3.2 Restrict the establishment of visitor accommodation in locations outside the Visitor Accommodation Sub-Zones to ensure that the zone maintains a residential character.

11.2.3.3 Ensure that residential visitor accommodation and homestays are of a scale and character that are compatible with the surrounding residential context and maintain residential character and amenity values.

11.2.3.4 Provide opportunities for low intensity residential visitor accommodation and homestays as a contributor to the diversity of accommodation options available to visitors and to provide for social and economic wellbeing.

11.2.3.5 Manage the effects of residential visitor accommodation and homestays outside the Visitor Accommodation Sub-Zone by controlling the scale, intensity and frequency of the use and those effects of the activities that differentiate them from residential activities.

## **11.3 Other Provisions and Rules**

### **11.3.1 District Wide Rules**

Attention is drawn to the following District Wide chapters.

## 11.3.2 Interpreting and Applying the Rules

- 11.3.2.1 A permitted activity must comply with all the rules listed in the Activity and Standards tables, and any relevant district wide rules, otherwise a resource consent will be required.
- 11.3.2.2 Where an activity does not comply with a Standard listed in the Standards table, the activity status identified by the 'Non-Compliance Status' column shall apply.
- 11.3.2.3 Where an activity breaches more than one Standard, the most restrictive status shall apply to the activity.
- 11.3.2.4 Each residential unit may include a single residential flat and any other accessory buildings.
- 11.3.2.5 The status of any Plantation Forestry will be determined by the Resource Management (National Environmental Standards for Plantation Forestry) Regulations 2017.
- 11.3.2.6 References to the Visitor Accommodation Sub-Zones in this Chapter only apply to the sub-zones within the Large Lot Residential Zone.
- 11.3.2.7 The following abbreviations are used within this Chapter.

P	Permitted	C	Controlled
RD	Restricted Discretionary	D	Discretionary
NC	Non Complying	PR	Prohibited

- 11.3.2.7A Compliance with the New Zealand Electrical Code of Practice for Electrical Safe Distances ("NZECP34:2001") is mandatory under the Electricity Act 1992. All activities, such as buildings, earthworks and conductive fences regulated by NZECP34: 2001, including any activities that are otherwise permitted by the District Plan must comply with this legislation. Chapter 30 Energy and Utilities part 30.3.3.2.c has additional information in relation to activities and obligations under NZECP34:2001.
